

Technical Quick Guides

New GUI – Hot to Format HDD on Recorder

- Log into the NVR using the code or pattern.
- Click on the top left menu.
- Select “Storage” from the drop-down menu

- From the “Storage” menu select HDD manager on the left-hand side
- Select the HDD you wish to format 
- Once the HDD has been selected click format in the bottom left-hand corner
- When the pop-up appears select “OK” to format the HDD (This will erase all the data which is on the HDD)
