Add the device name, username and password.

07:18 5.59 KB/s

< Add Device Save

Add Mode P2P

SN [redacted] 8

Device Name

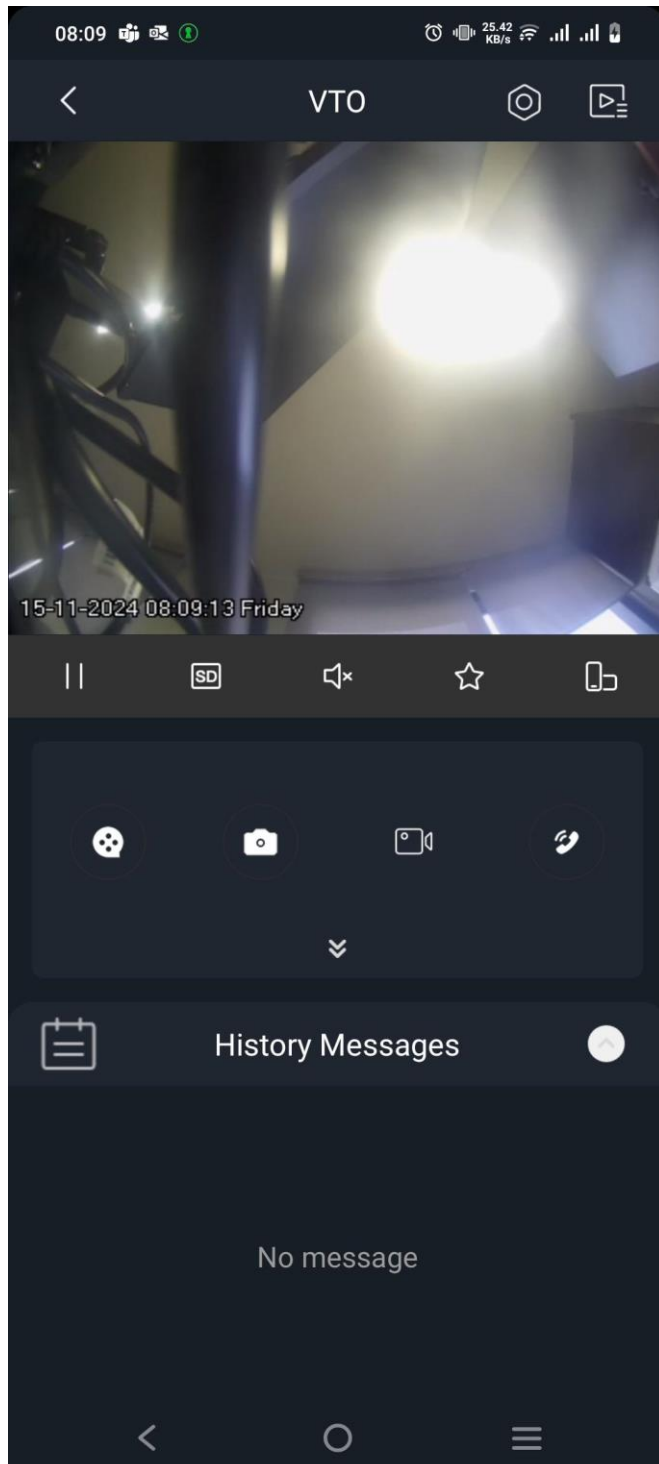

Username admin

Device Password

DMSS be linked with the device key. If you forget the device password, you can reset the password by logging in to the DMSS account.

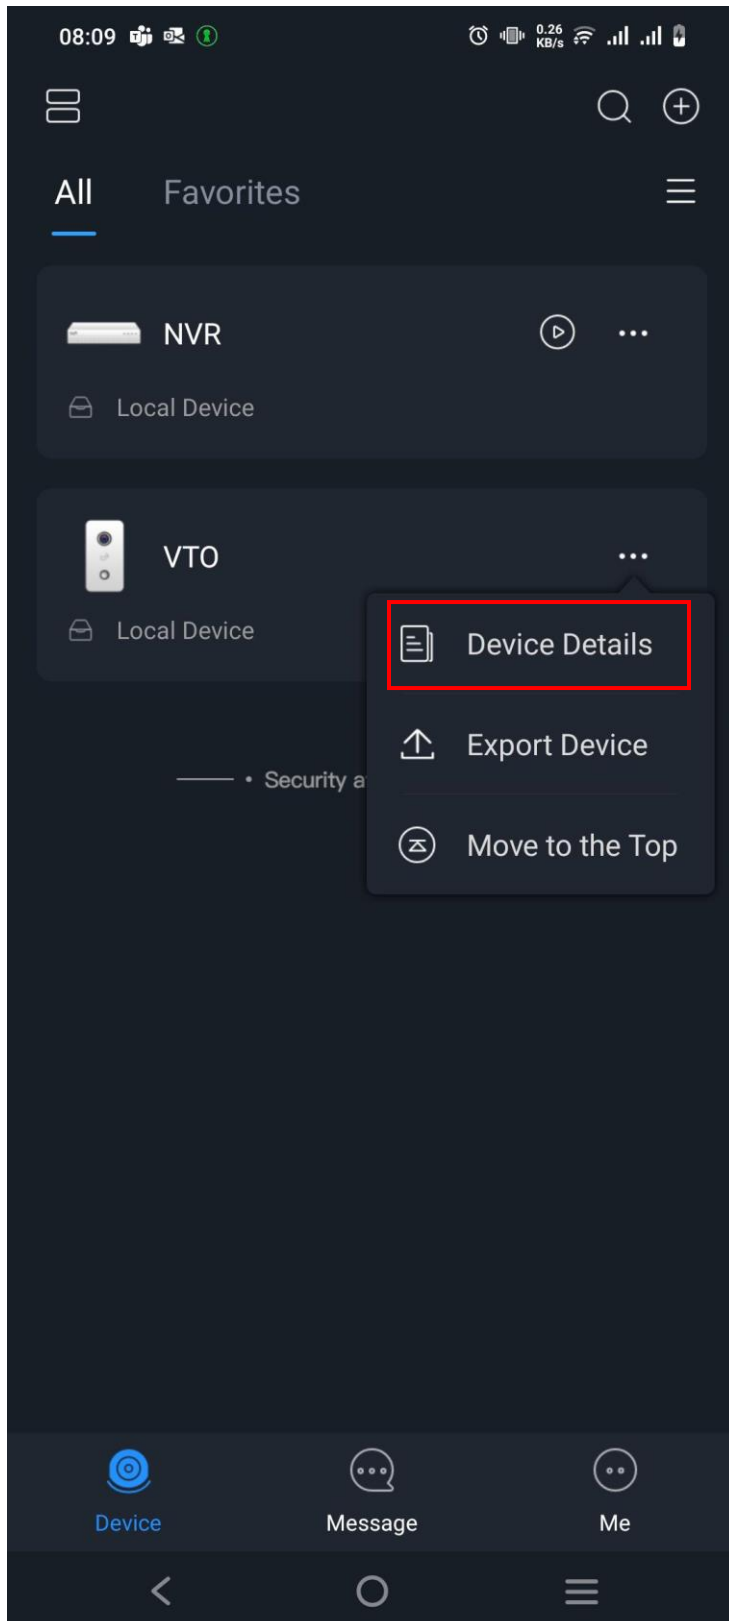

[Privacy Agreement>>](#)

After successfully adding the device, you will see the live view of the intercom

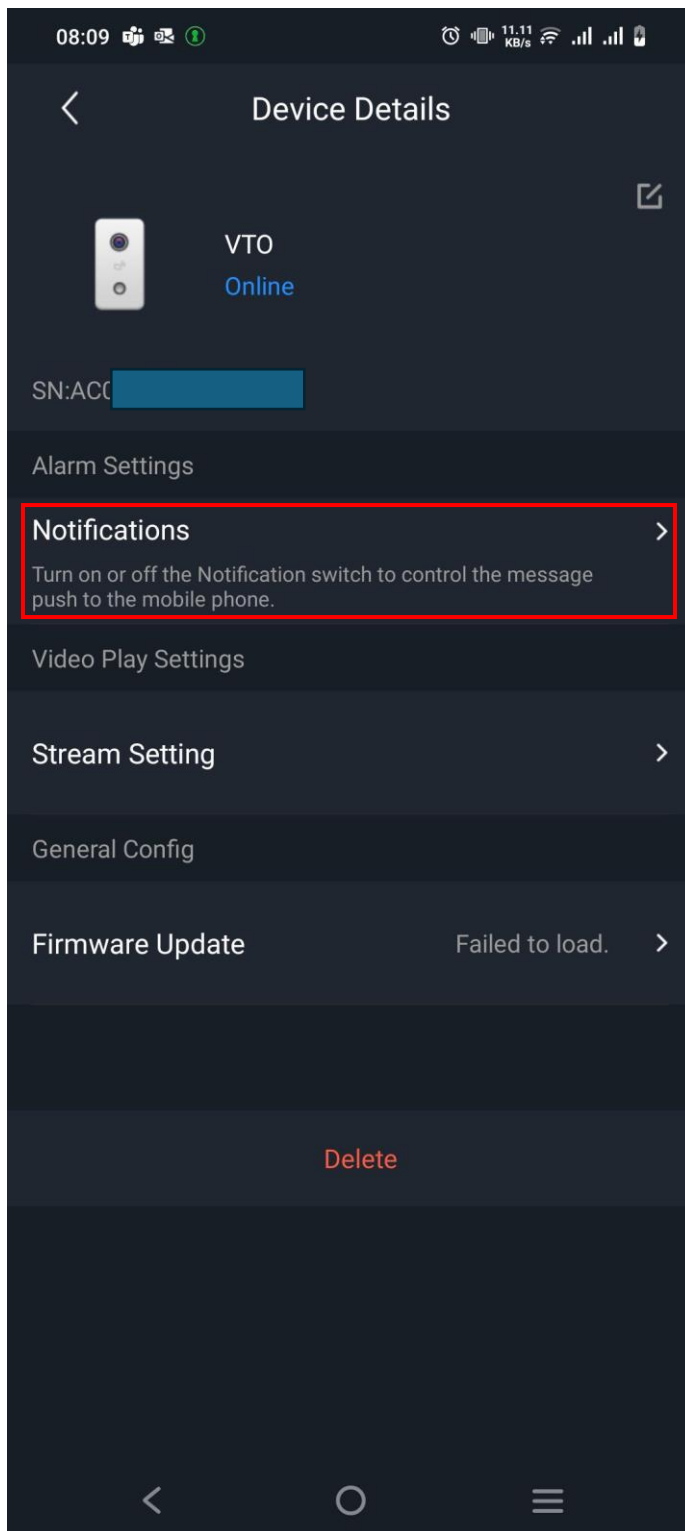

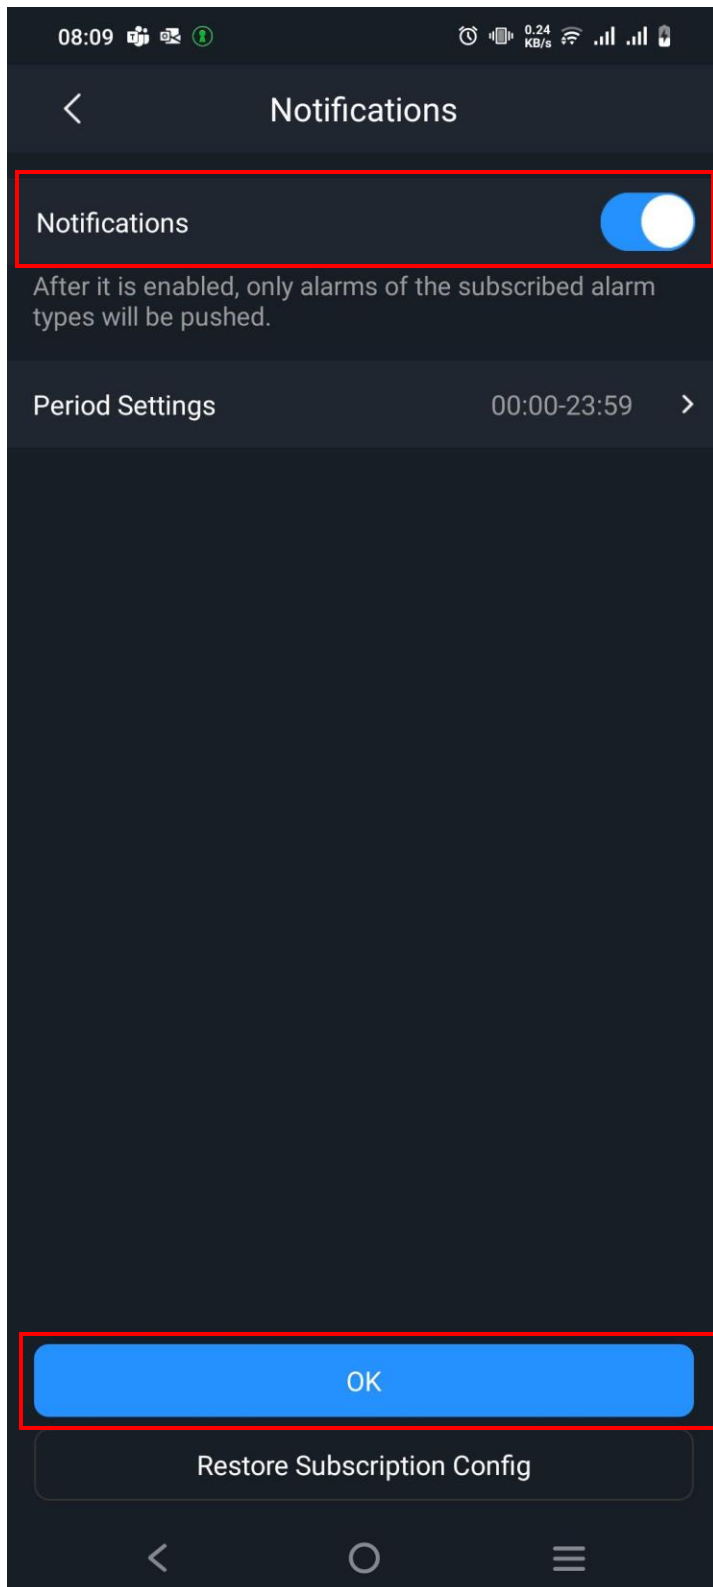

To enable the call Notification, select the ... and click the Device Details

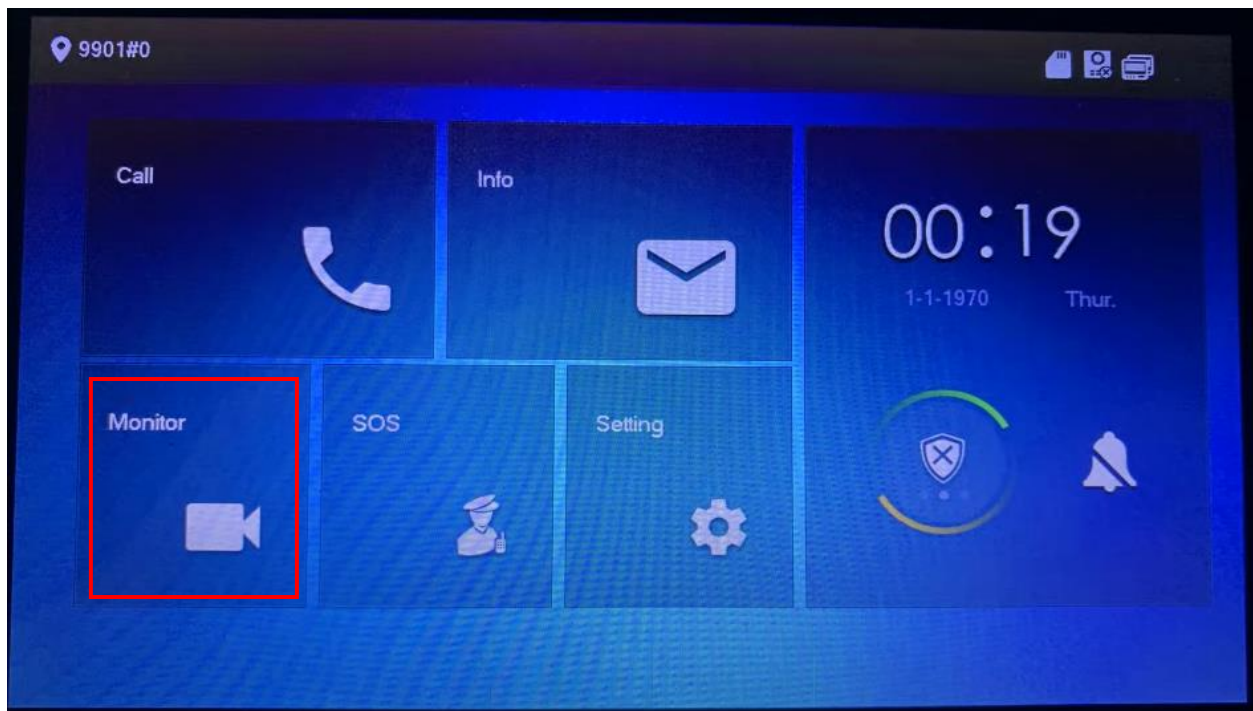

Click the Notification tab

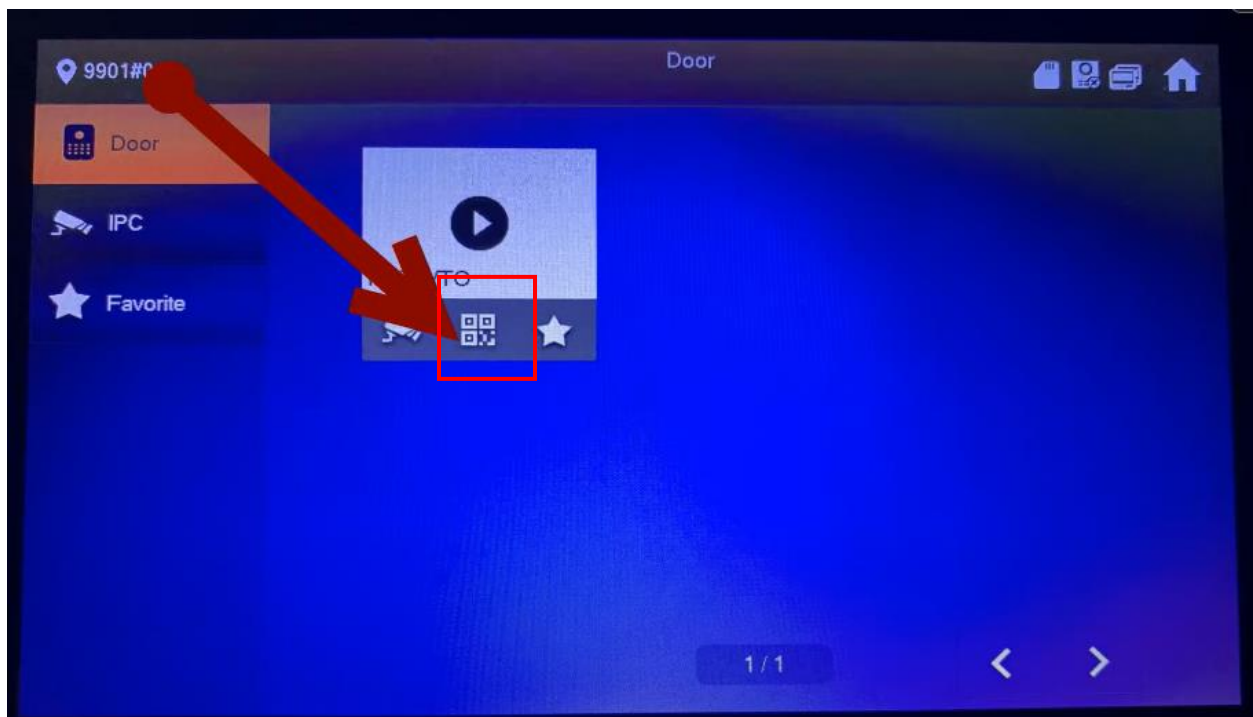

Make sure that the notification is Enable and then click the OK button and Test the System

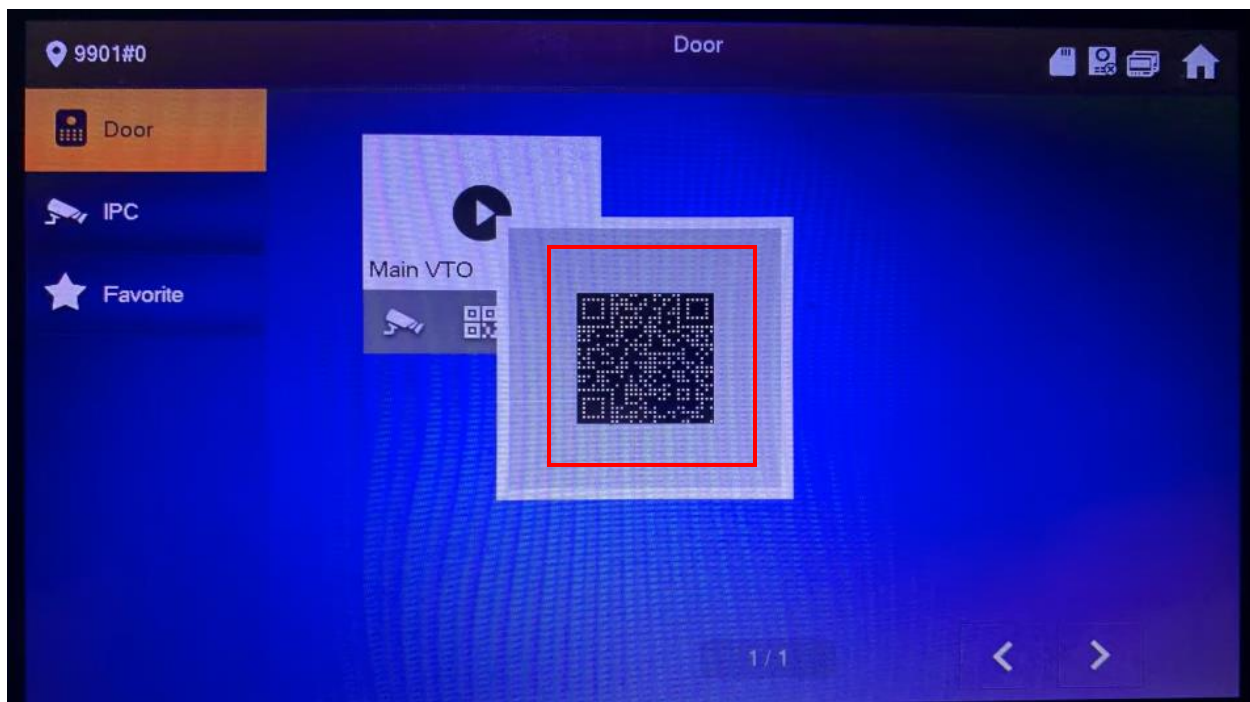

The QR code can also find at VTH (Indoor Monitor) by Selecting the Monitor Tab

Under the Monitor Tab, Click the QR code Icon under the Main VTO

This will display the QR code for the VTO P2P

If you don't have QR code, you can Manually enter the SN of the device to add it
