

Technical Quick Guides

Upload Images and Videos on MPS

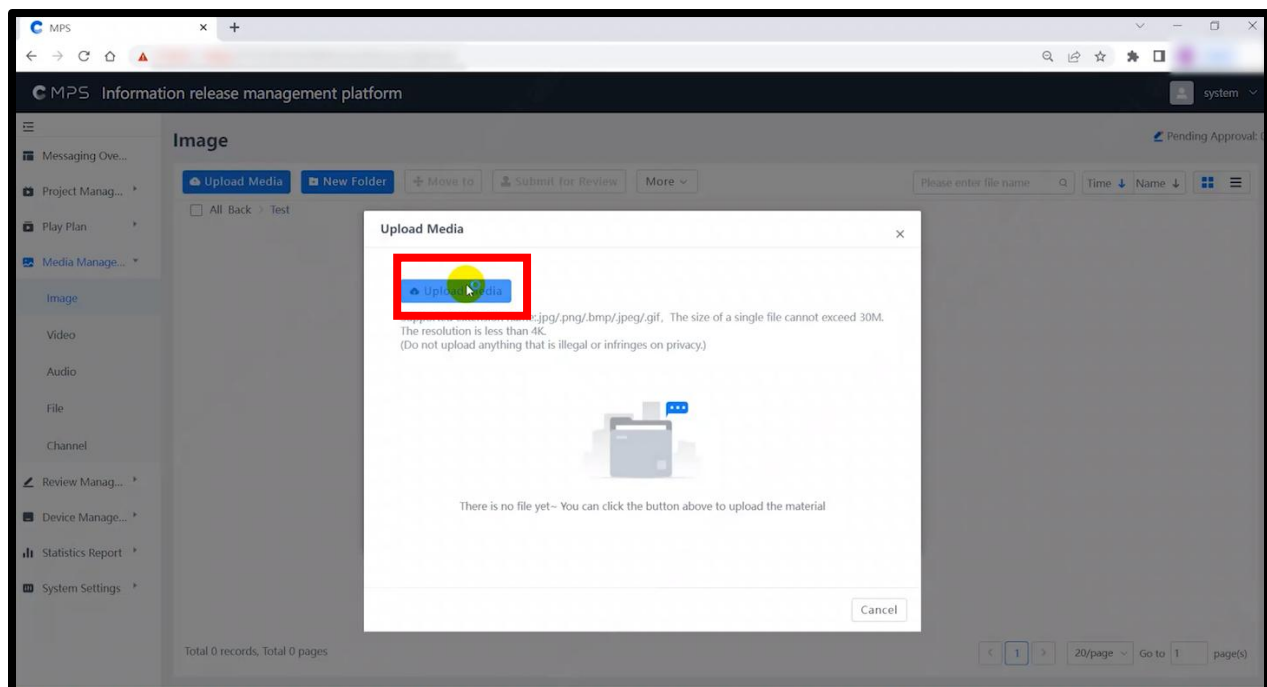

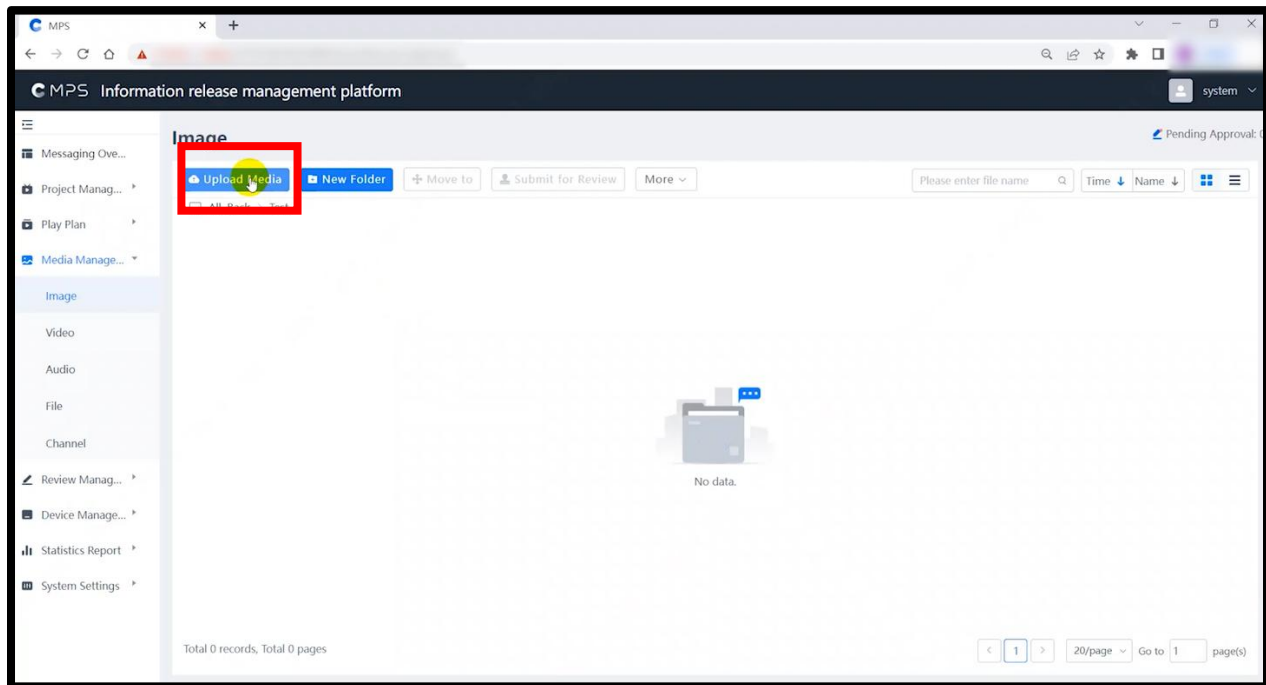

Login on the MPS and click the Media Management tab

Click the image section and click New Folder to create a new folder

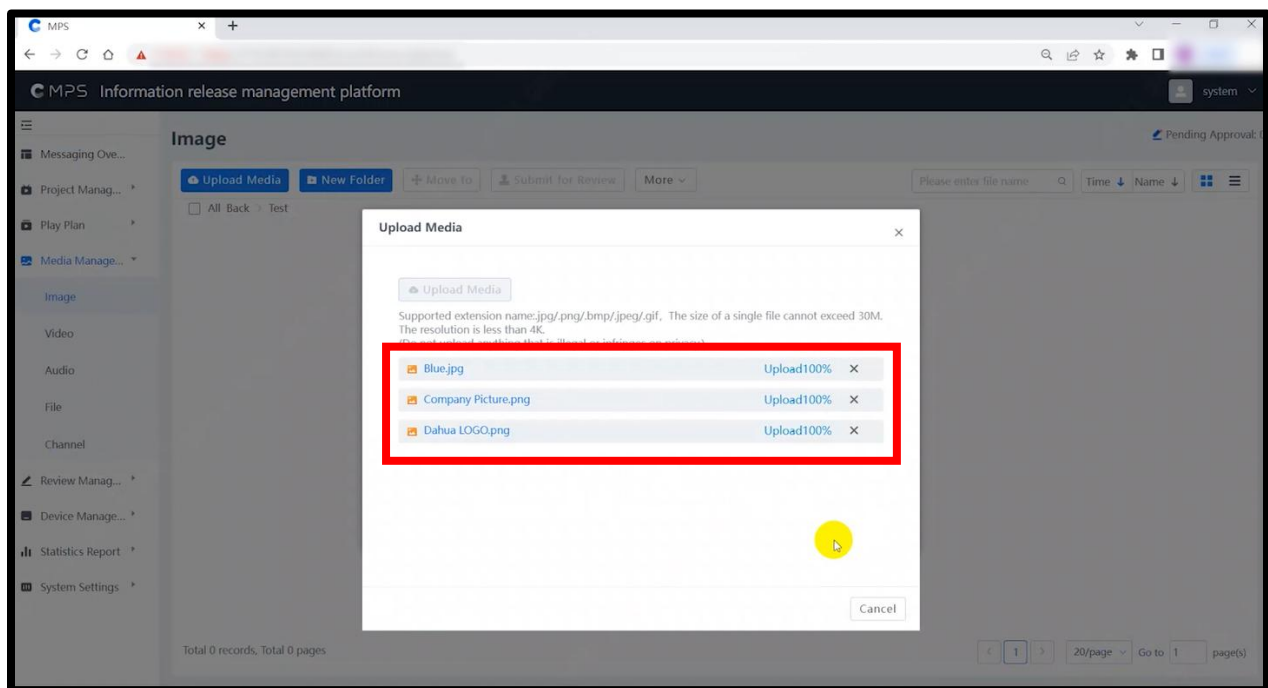

Select the folder you created and click the Upload Media button

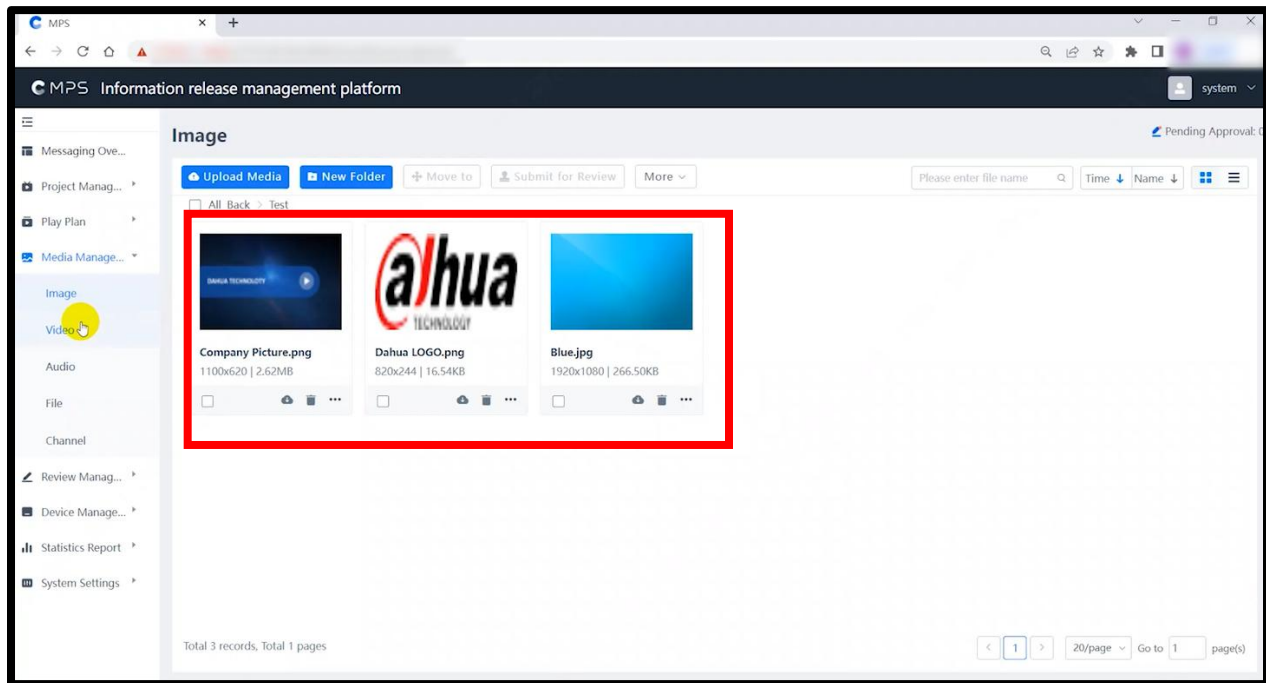

Select the Image you want to and click upload

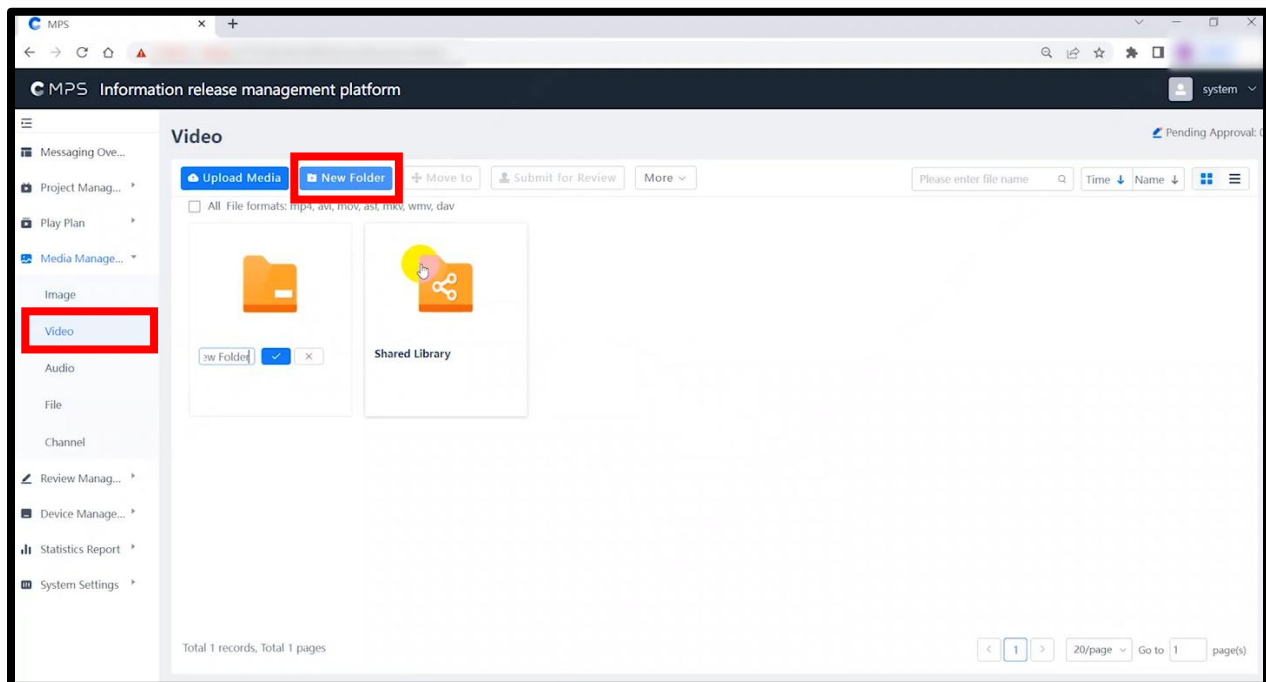

Wait until the file completely uploaded

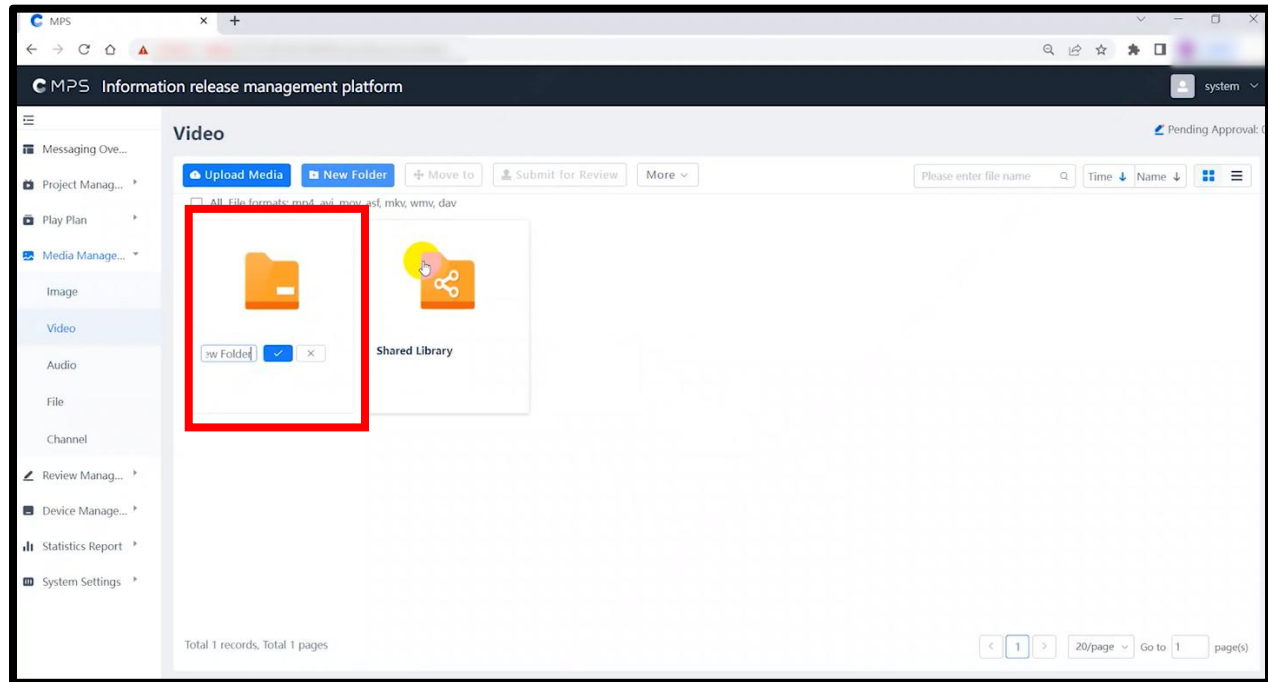

The file will appear, and you can now use this file for your project

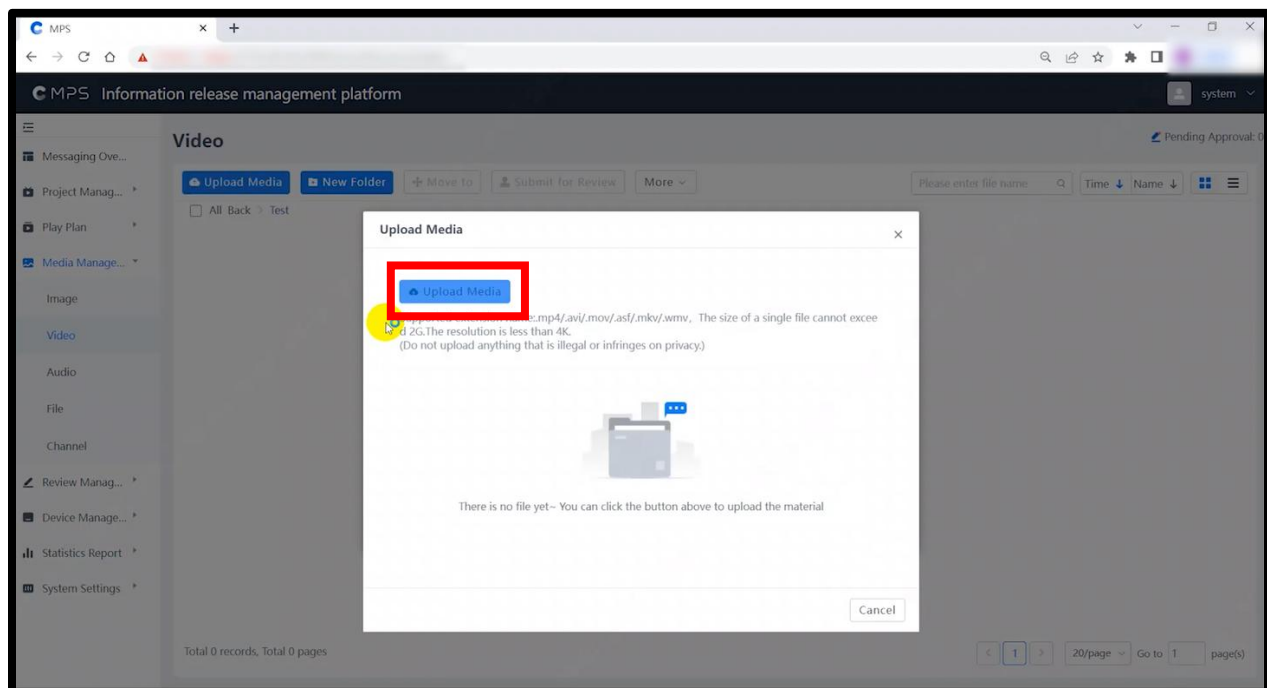

Click the Video tab to add the video file then click the new folder to create a new folder

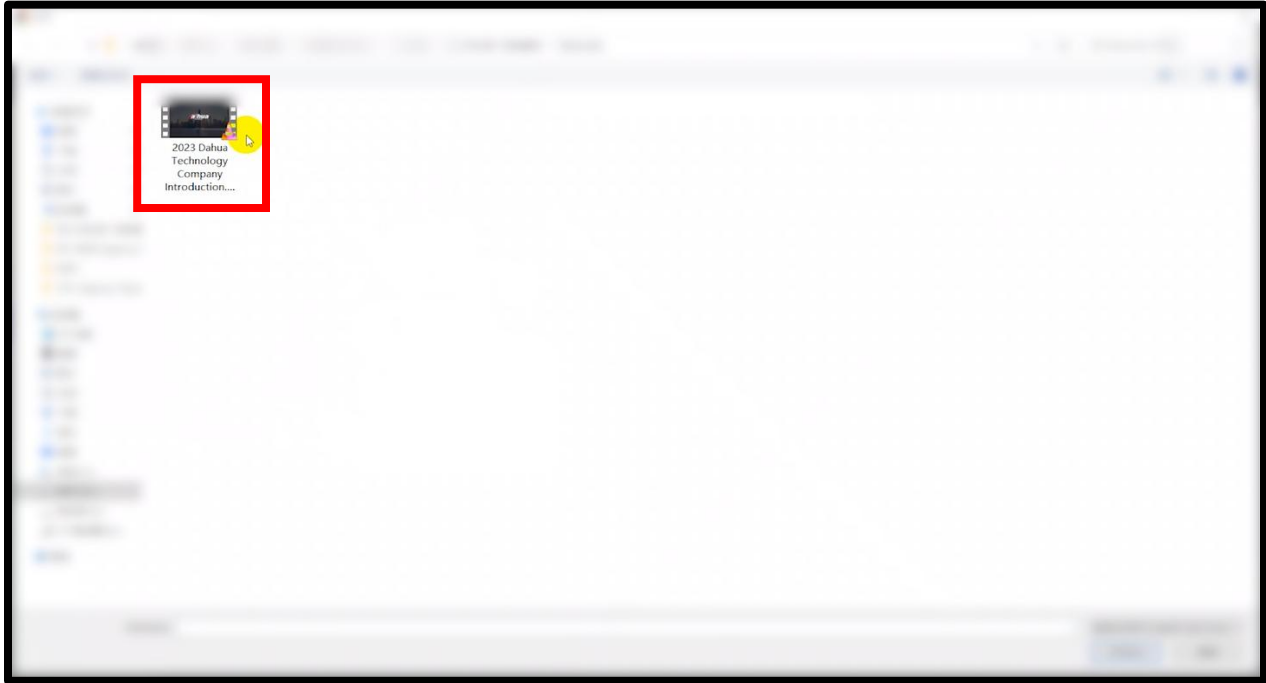

Click the folder you created and click the Upload Media button

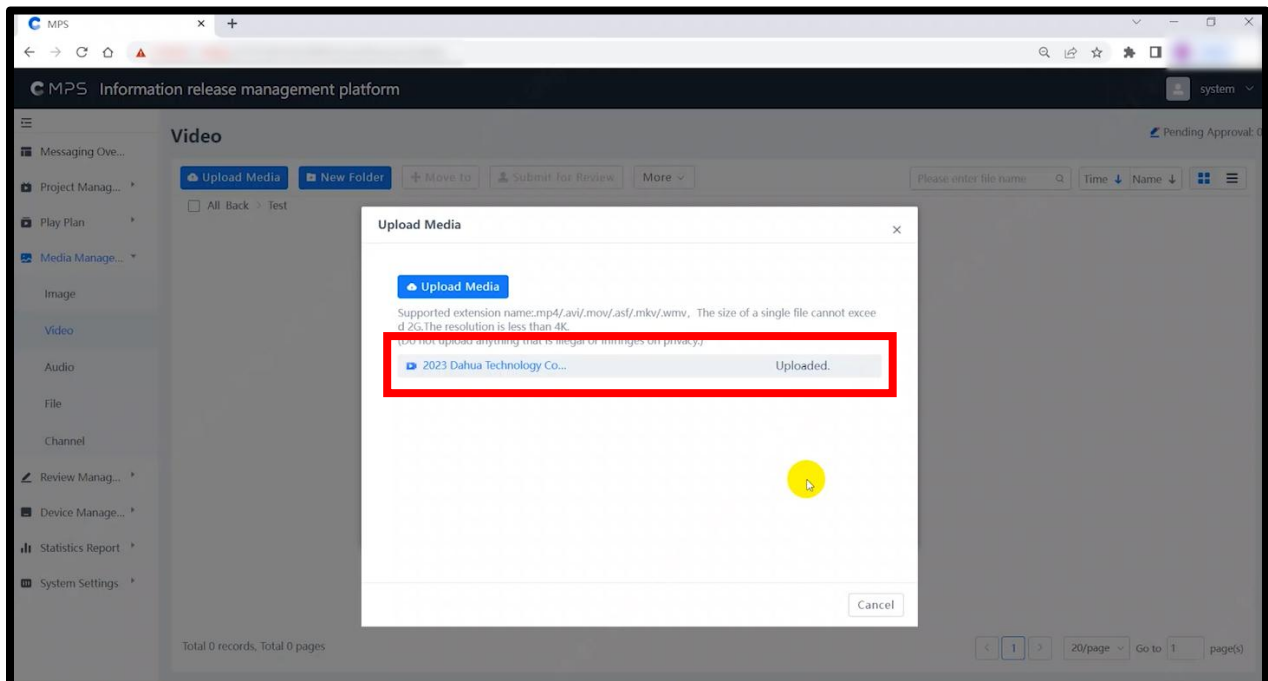

Click the Upload Media

Select the video file you want to upload

Wait until the file complete uploading

The file will appear on the folder that you created and you can now use this on your project
