

## Technical Quick Guides

### Disable audio on Dahua IPC in batch

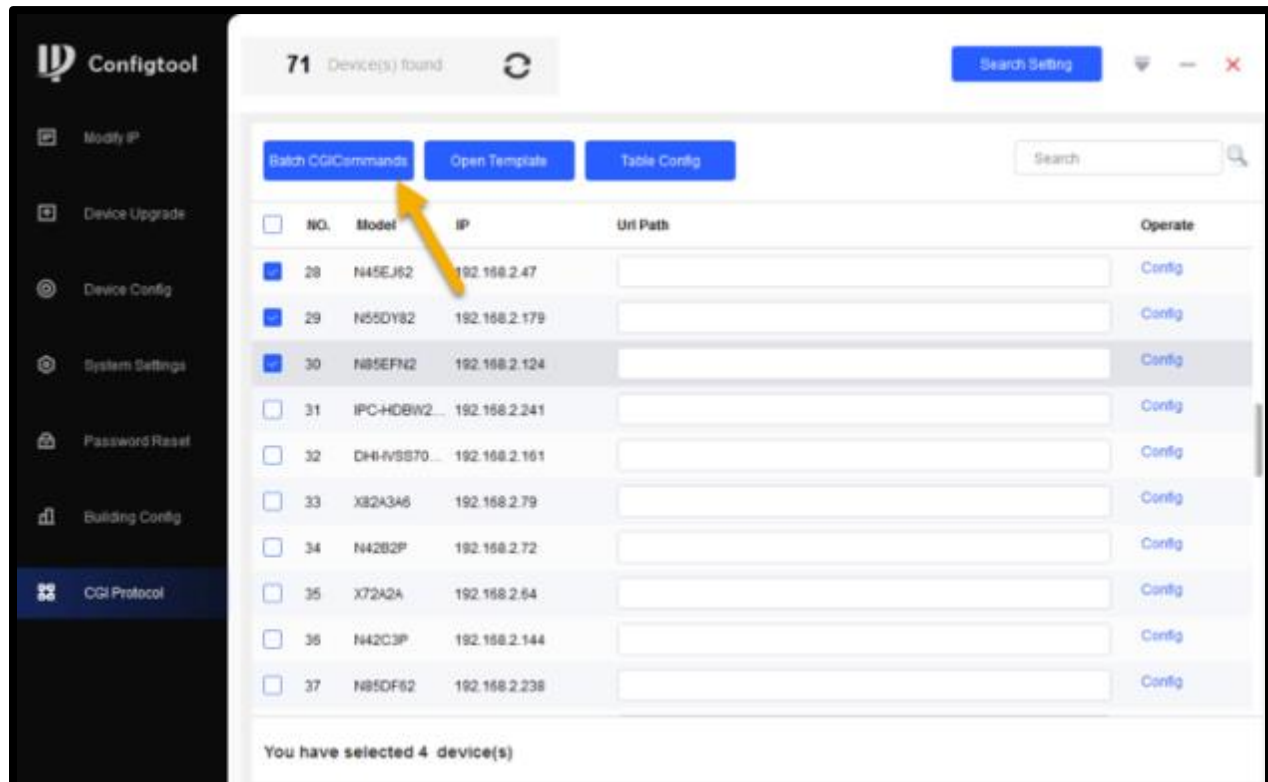

Launch the latest version of Config Tool click on the Search settings and enter camera username and password.

Go to CGI and select the camera that you wish to make changes

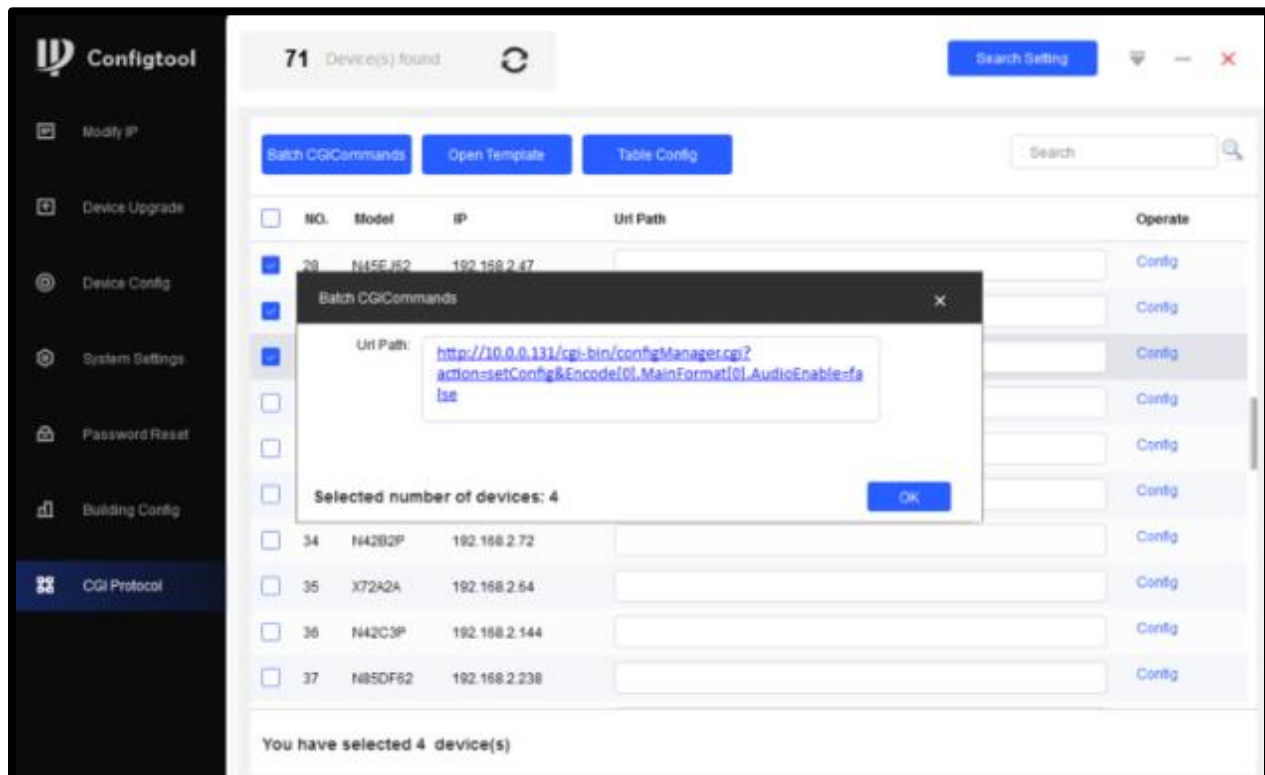

Click on the **Batch CGICommands**

Enter the URL Command and click OK

`http://10.0.0.1/cgi-bin/configManager.cgi?action=setConfig&Encode[0].MainFormat[0].AudioEnable=false`

Once its successfully modified, you will see the green checkmark next to the IP address.

Model	IP		Url Path	Operate
N42BJ62	192.168.2.218	✓	<input type="text" value="anager.cgi?action=setConfig&amp;Encode[0].MainFormat[0].AudioEnable=false"/>	<a href="#">Config</a>
