

## Technical Quick Guides

### Adding IPC for IP Intercom System using Web Browser

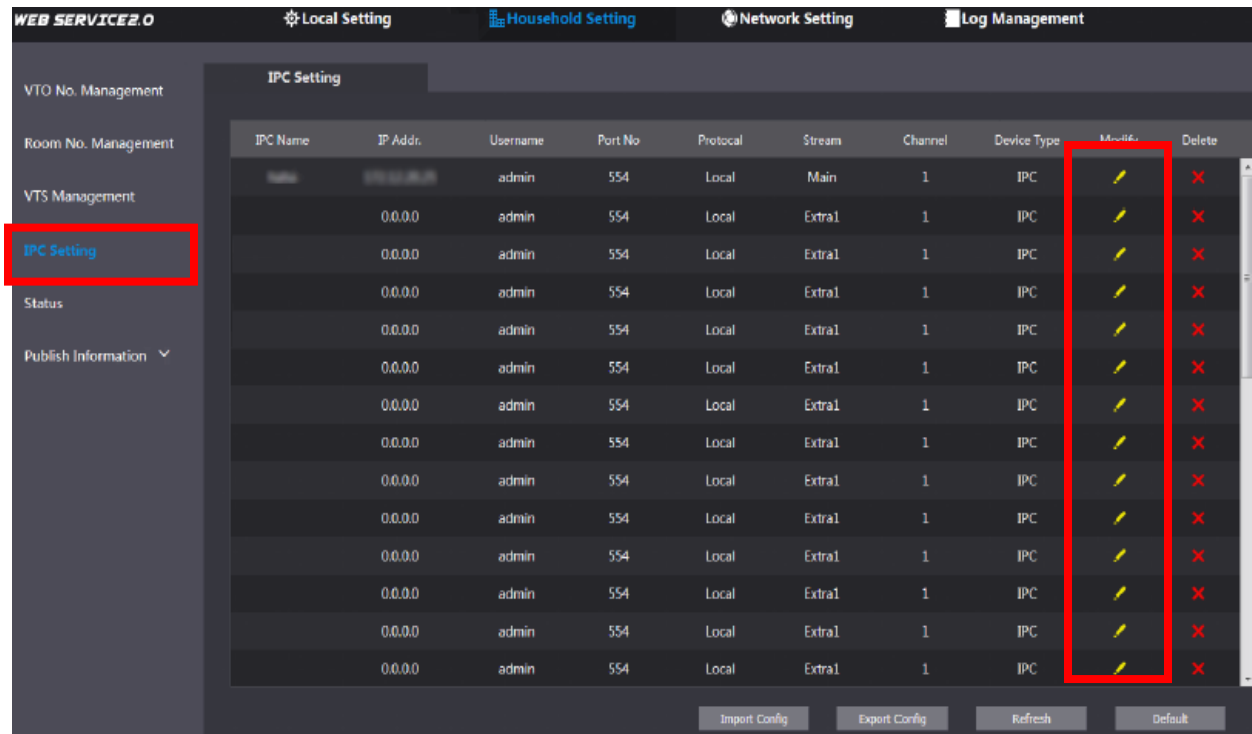

Log in to the VTOs web browser

Click the Household Setting tab

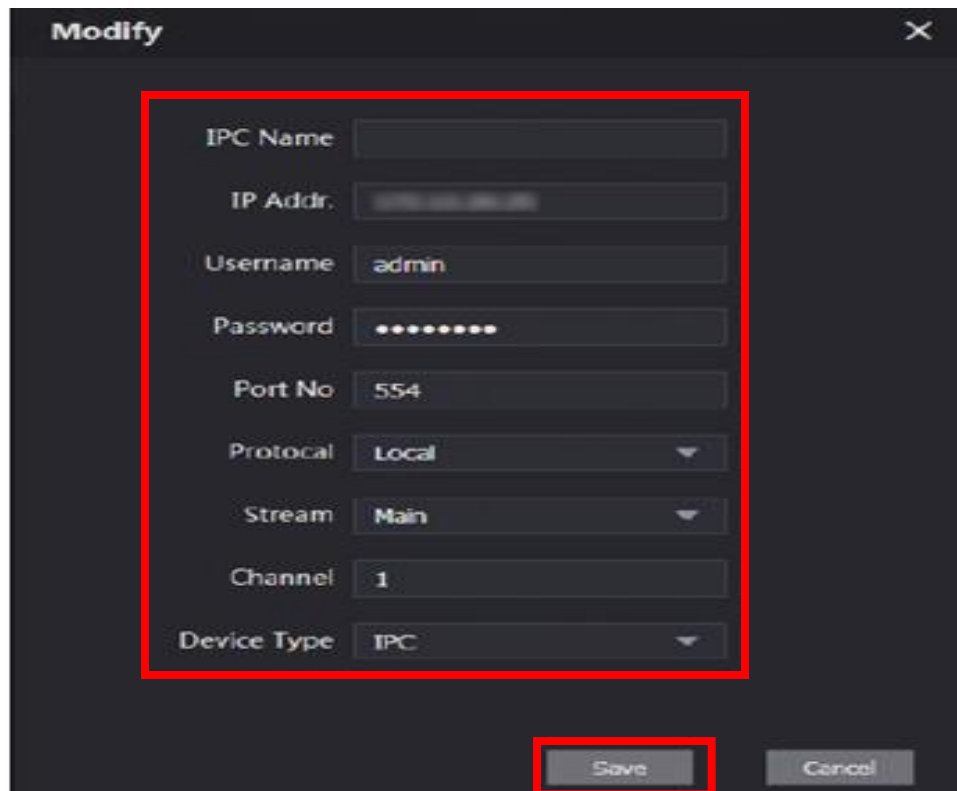

Go to IPC settings then click the Modify icon to add the IPC details

IPC Name	IP Addr.	Username	Port No	Protocol	Stream	Channel	Device Type	Modify	Delete
IPC1	0.0.0.0	admin	554	Local	Main	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		
	0.0.0.0	admin	554	Local	Extra1	1	IPC		

Input the IPC details, IPC Name, IP Address, Username, Password, etc.

Click Save button after completing the details

## IPC Parameters

Parameter ↕	Description ↕
IPC Name ↕	Enter the camera name as you want ↕
IP Addr. ↕	IPC's IP address ↕
Username ↕	The username and password for the web interface of IPC ↕
Password ↕	
Port No. ↕	Keep default value ↕
Protocol ↕	Select 'Local' for <u>Dahua</u> IPC; Select ' <u>Onvif</u> ' for third party IPC ↕
Stream ↕	Select 'Main' or 'Extra 1', the main stream has better image quality and it also costs more bandwidth. ↕
Channel ↕	Define a channel for the device ↕
Device Type ↕	Select 'IPC/NVR/HCVR/XVR' as the device type as added. Here is 'IPC'. ↕
