How to update the firmware of the camera on NVR

Before Proceeding make sure that the NVR is connected to the Internet, or the status at P2P is Online

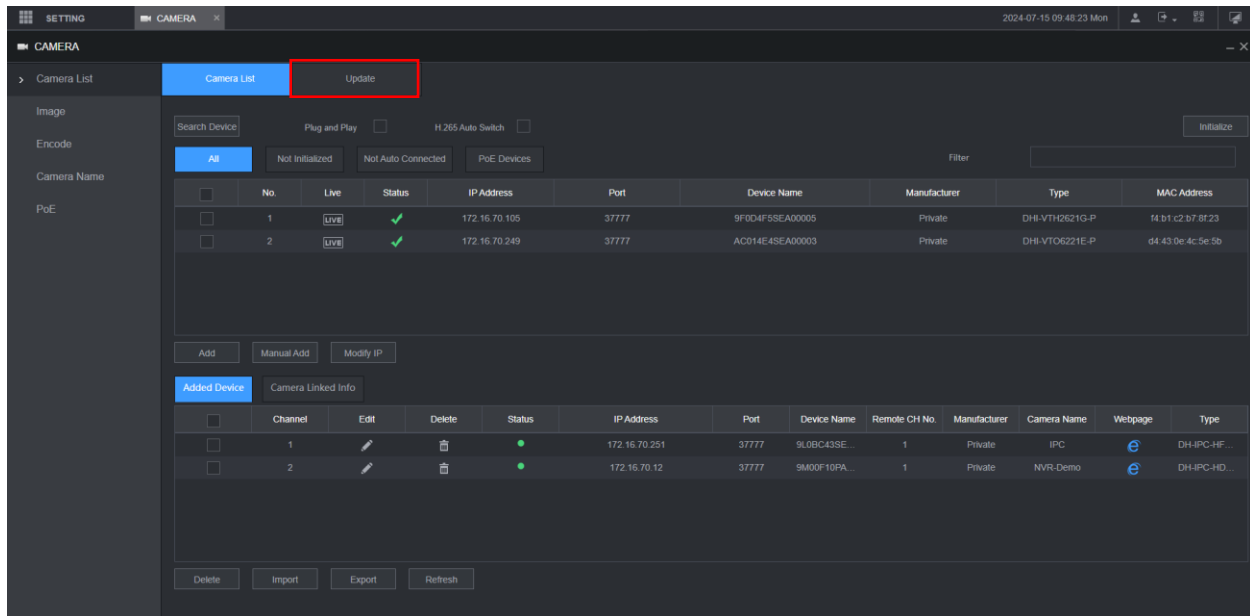

First Login on the NVR

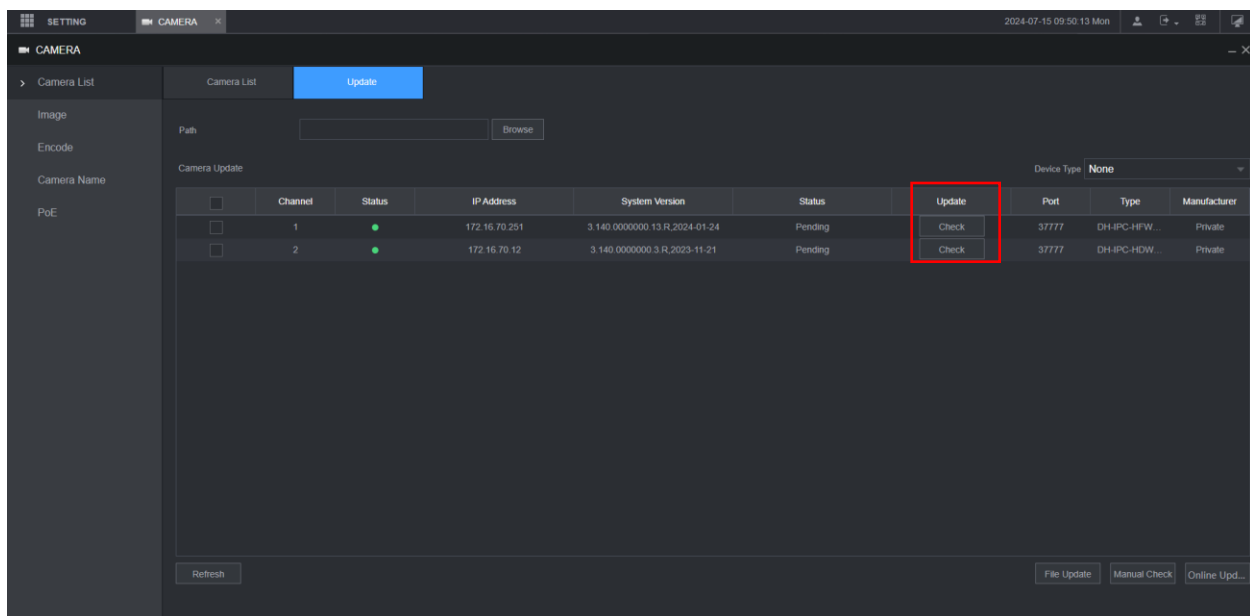

On the upper left corner of the screen, click the setting and select the Camera section

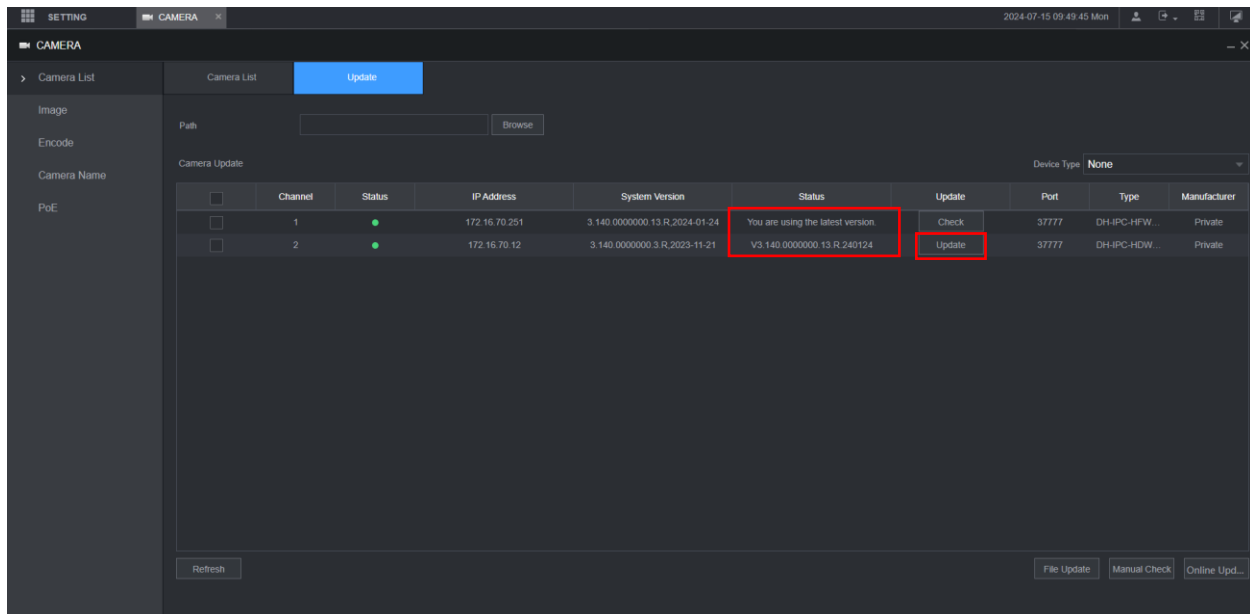

On the camera section, click the Update tab

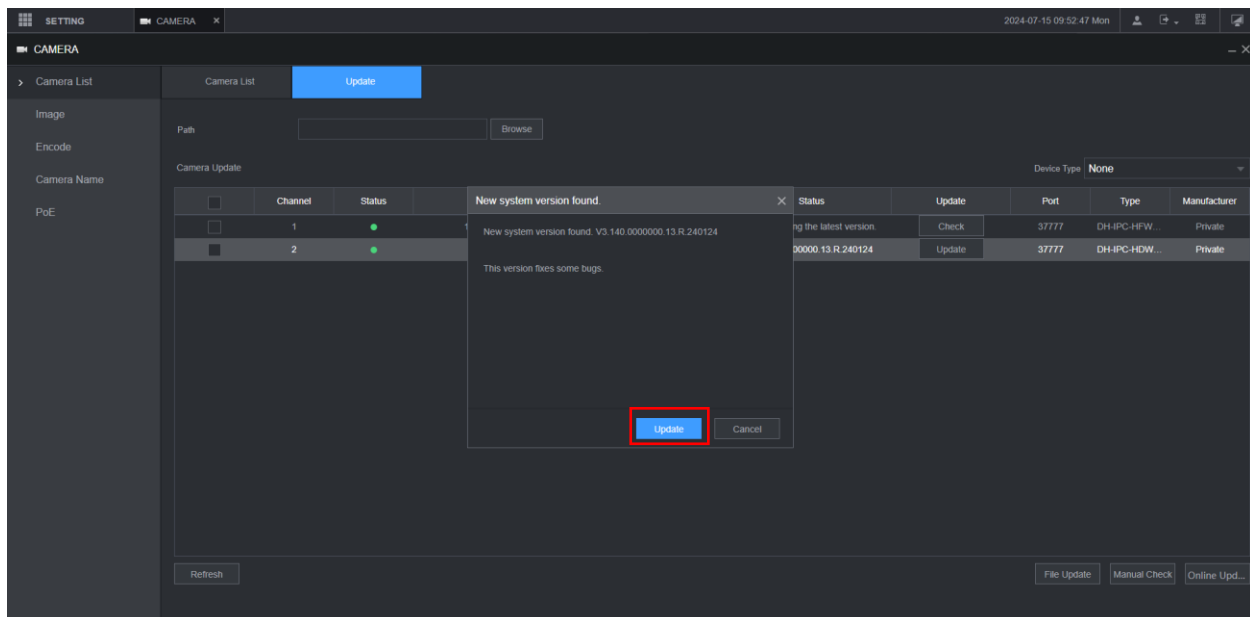

On the Update tab, click the Check button to check if there's available update for the camera

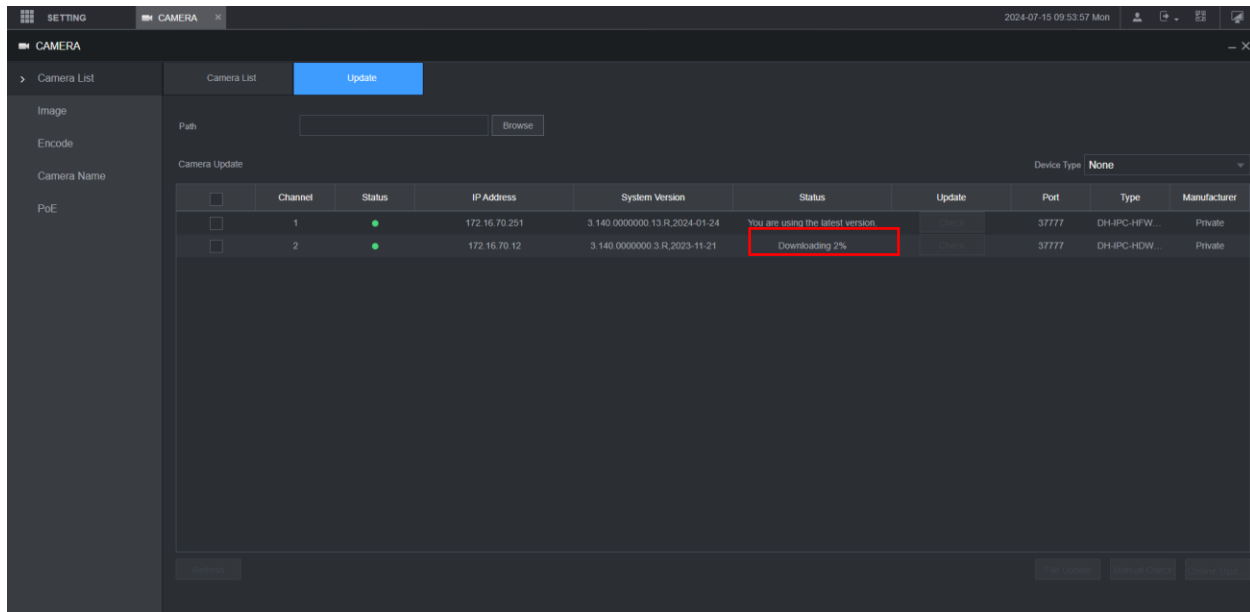

After clicking the Check button, it will display if there's available update for the camera

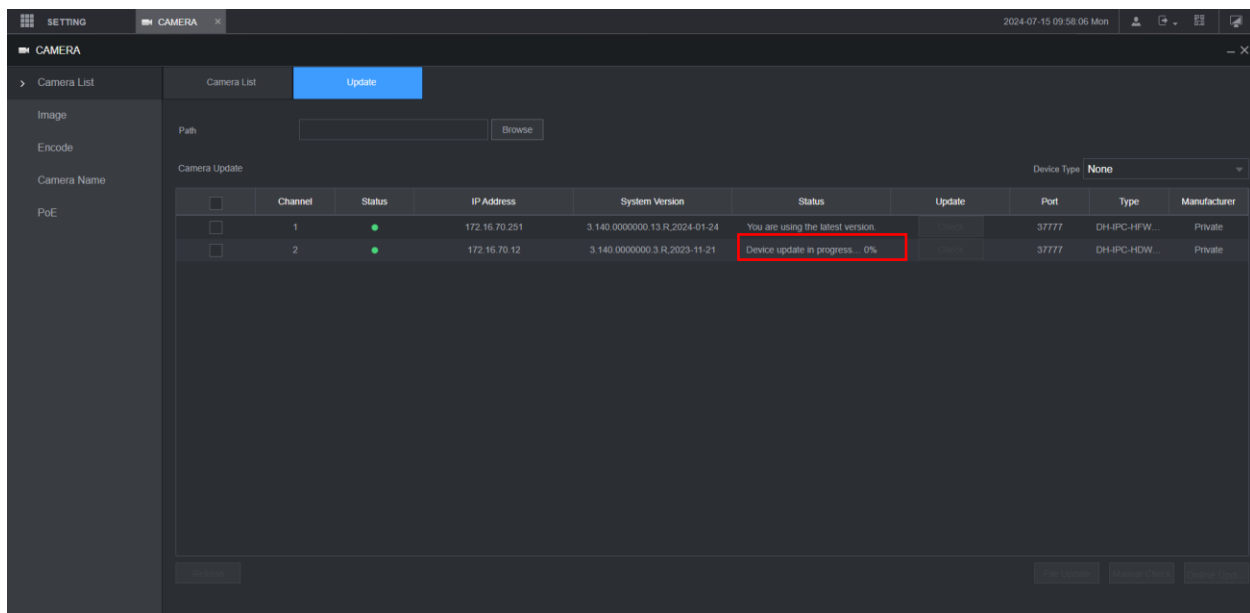

If you find any available update, click the Update button and it will pop up the system update tab.

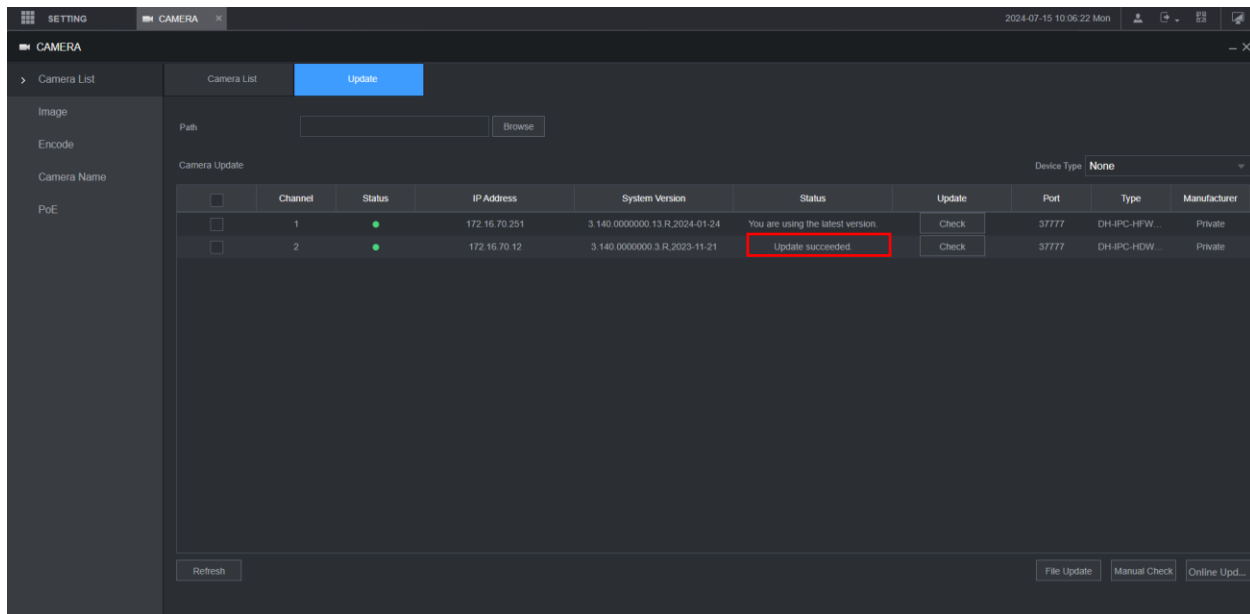

Click update and it will start downloading the updated firmware. Wait until the download is complete.

After the Download complete, it will start the updating process, wait until the updating process is completed.

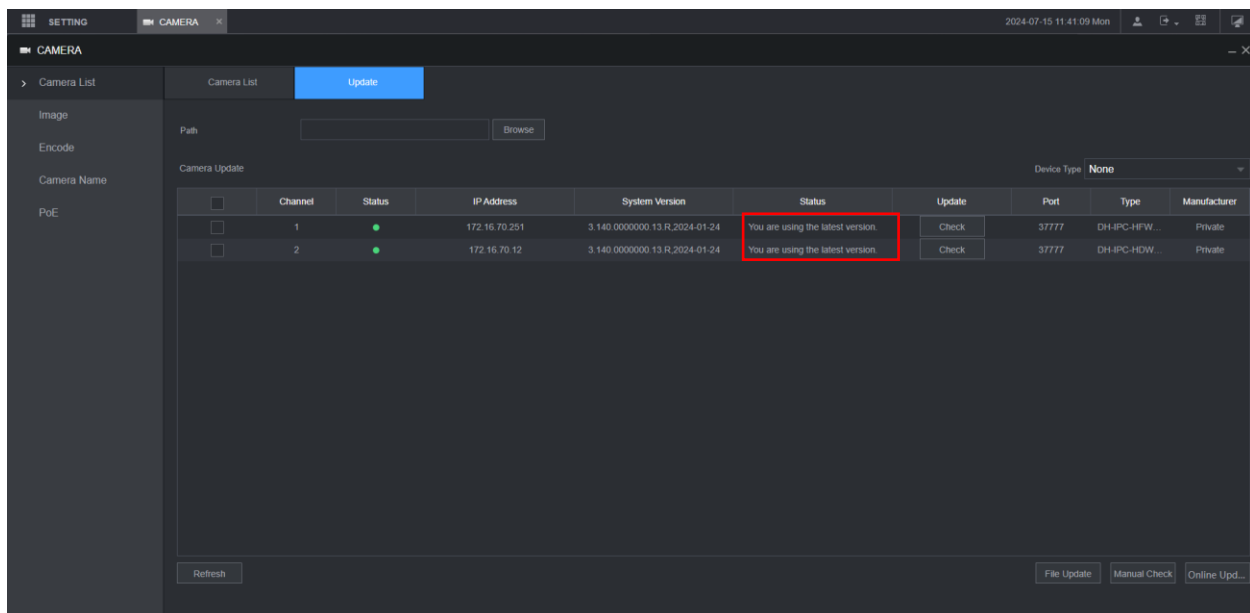

After the update process is completed, it will show “Update succeeded”, the camera will reboot automatically

The screenshot shows the 'CAMERA' settings page with the 'Update' tab selected. A table lists two camera channels. Channel 2 shows a green status dot and the message 'Update succeeded', which is highlighted with a red box. Channel 1 shows 'You are using the latest version.'.

Channel	Status	IP Address	System Version	Status	Update	Port	Type	Manufacturer
1	●	172.16.70.251	3.140.0000000.13.R.2024-01-24	You are using the latest version.	Check	37777	DH-IPC-HFW...	Private
2	●	172.16.70.12	3.140.0000000.13.R.2023-11-21	Update succeeded.	Check	37777	DH-IPC-HFW...	Private

After the camera finished rebooting check the status if the camera is using the latest firmware version.

The screenshot shows the same 'CAMERA' settings page. Both Channel 1 and Channel 2 now show a green status dot and the message 'You are using the latest version.', both of which are highlighted with red boxes.

Channel	Status	IP Address	System Version	Status	Update	Port	Type	Manufacturer
1	●	172.16.70.251	3.140.0000000.13.R.2024-01-24	You are using the latest version.	Check	37777	DH-IPC-HFW...	Private
2	●	172.16.70.12	3.140.0000000.13.R.2024-01-24	You are using the latest version.	Check	37777	DH-IPC-HFW...	Private
