

Technical Quick Guides

Create Program with Video, Images and Text on MPS

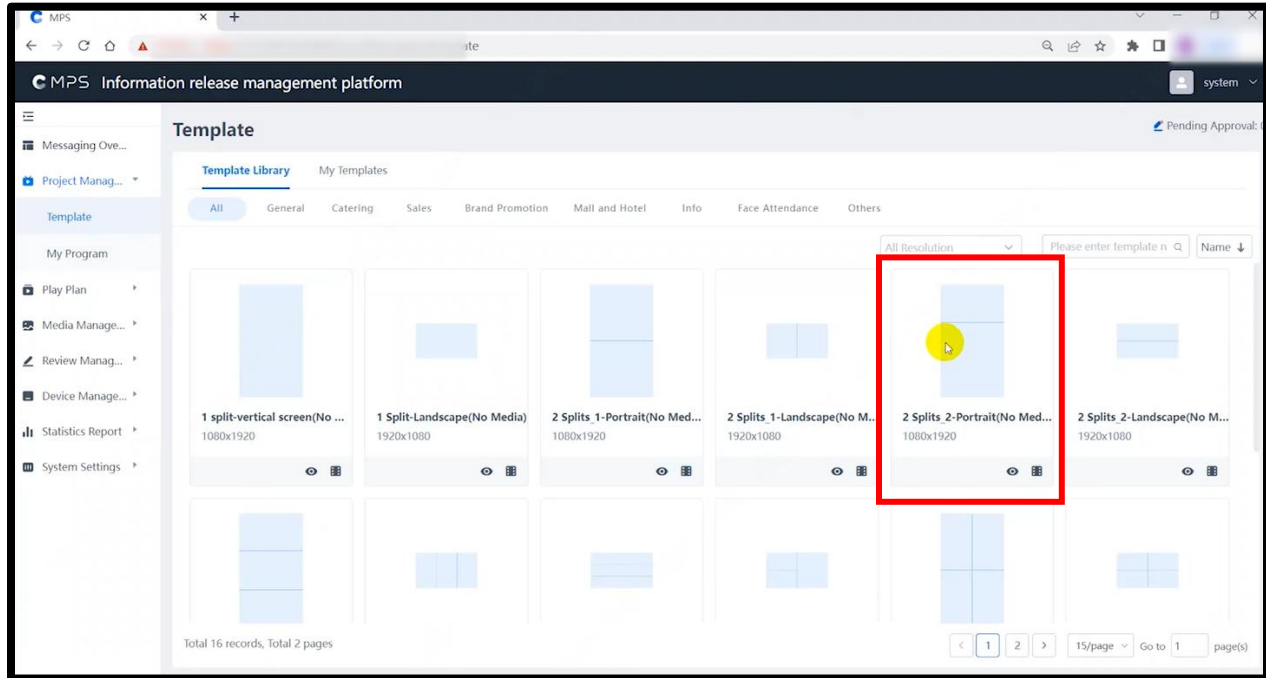

Login to MPS interface and click the Project Management tab

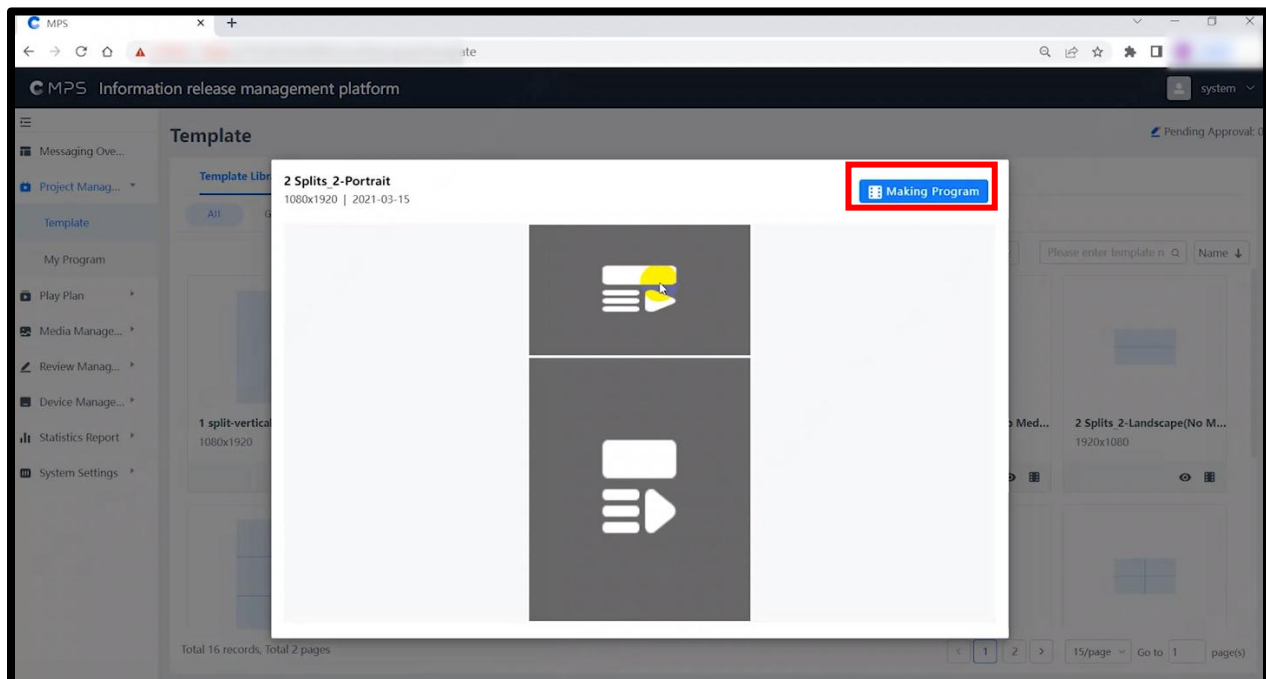

Under Project Management tab, select Template

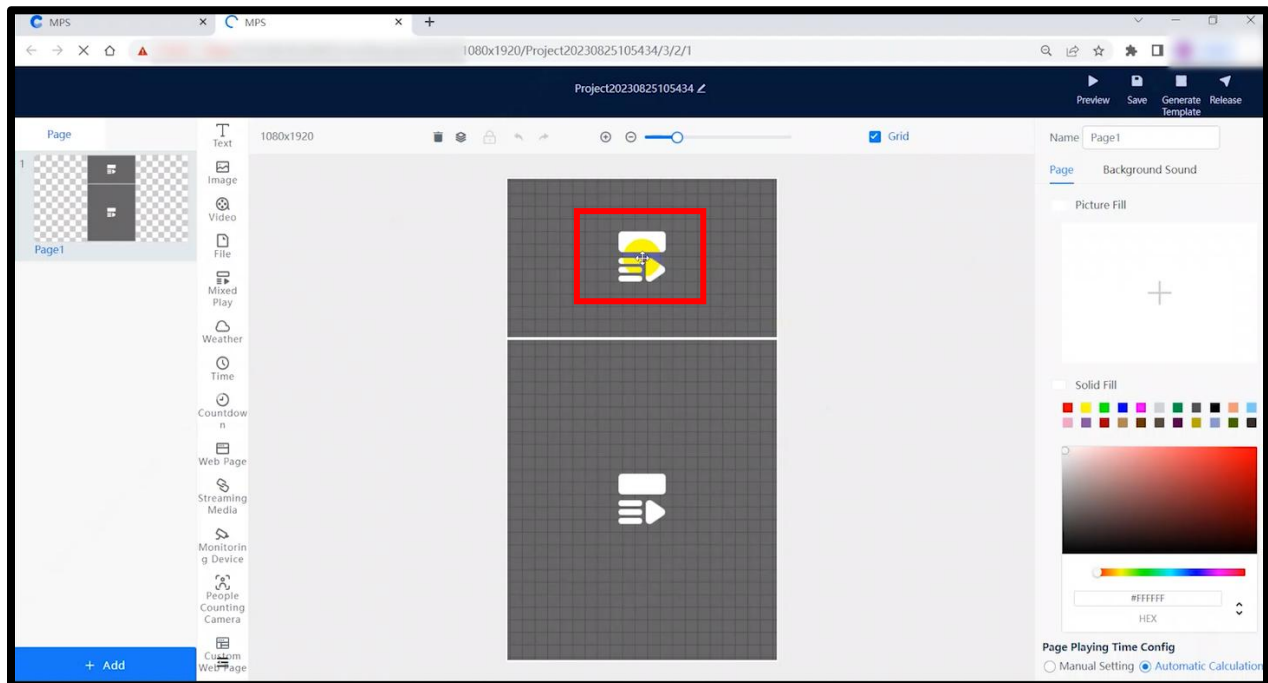

Select the Template you want to use

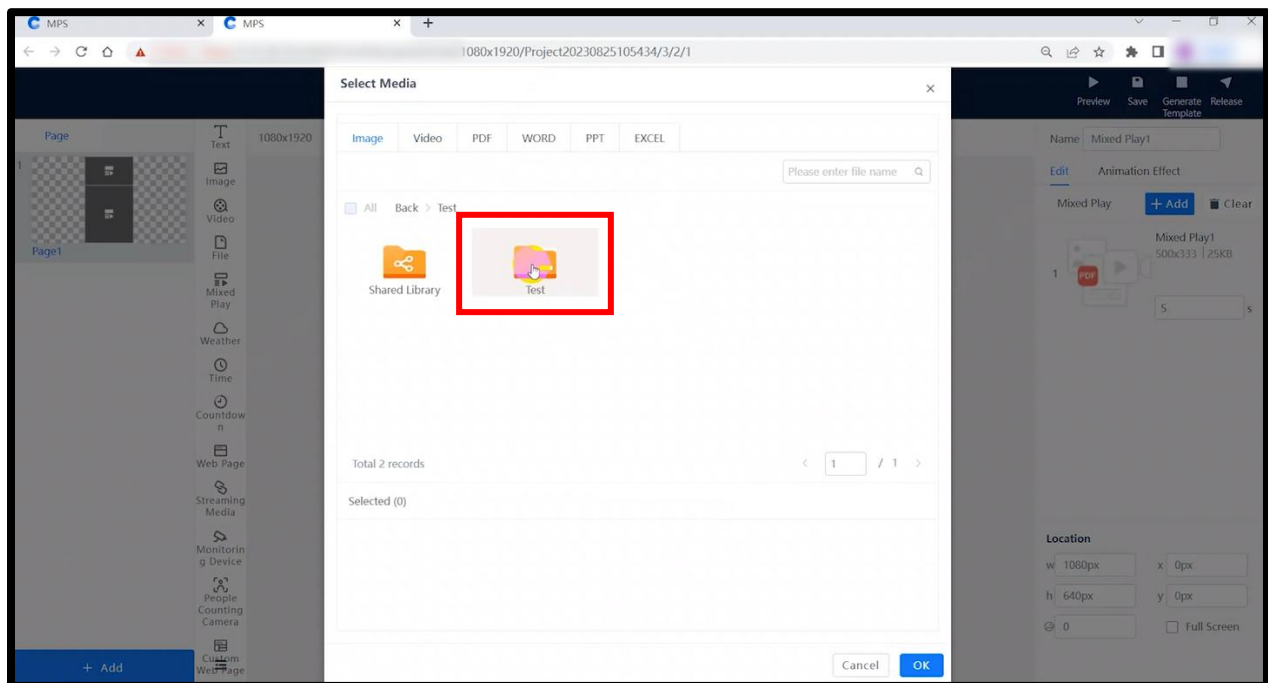

Click the Making Program button

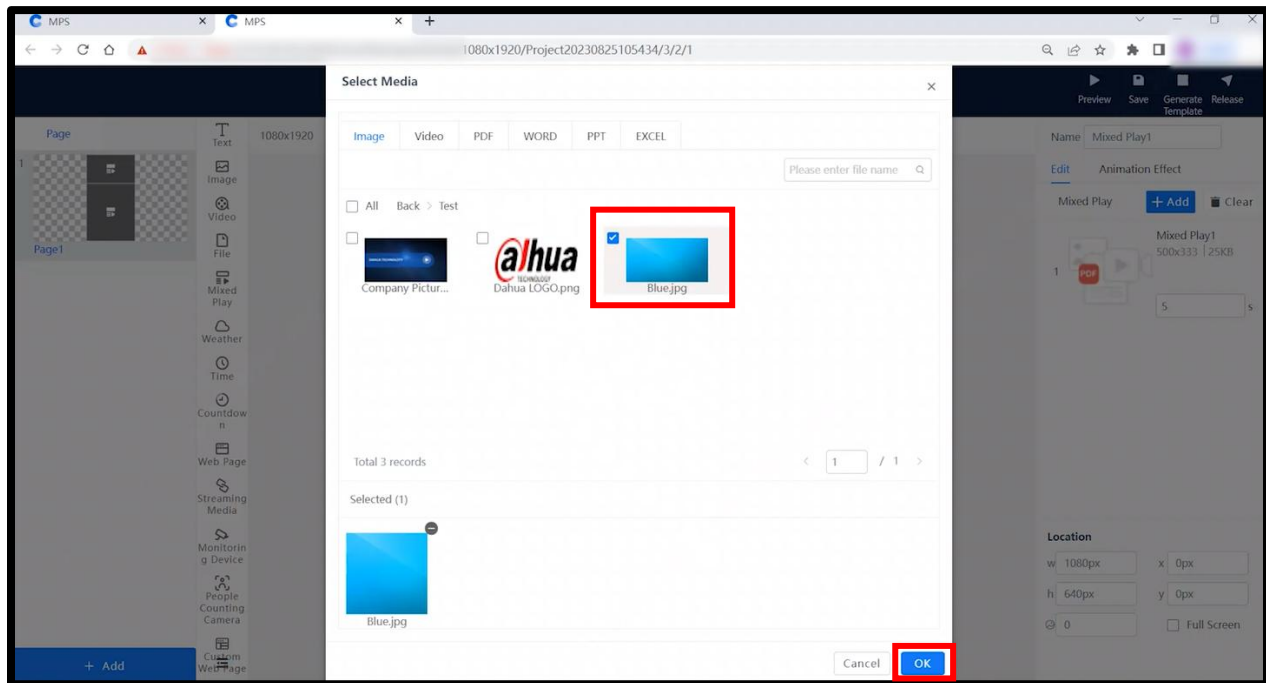

It will redirect to different tab then double click the area of the template you want to add the image, video or text

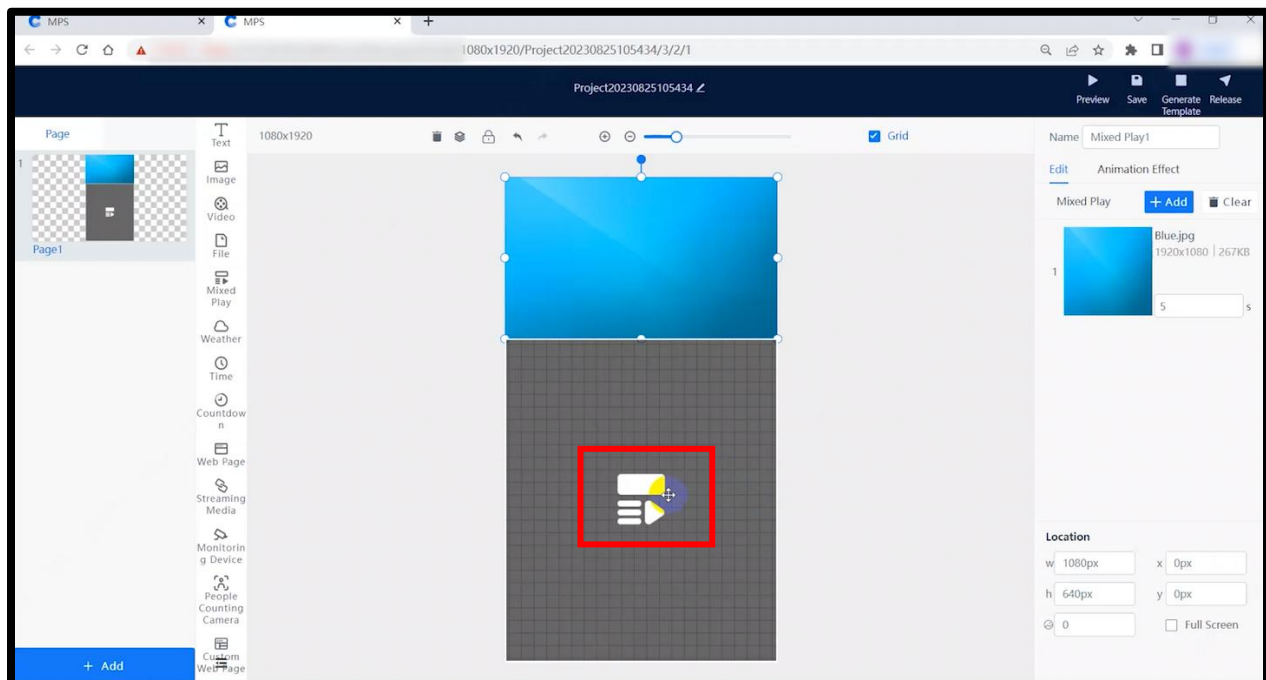

Select the folder where the image, video is located

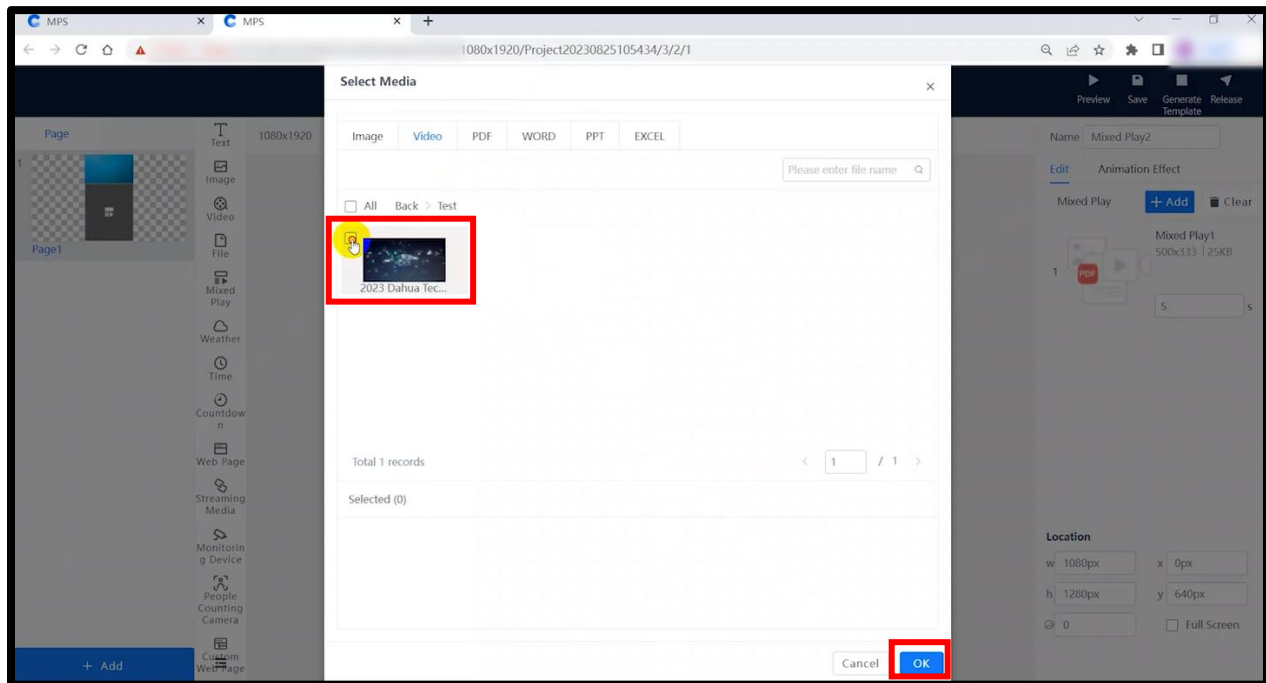

Select the file of the image or video and click OK

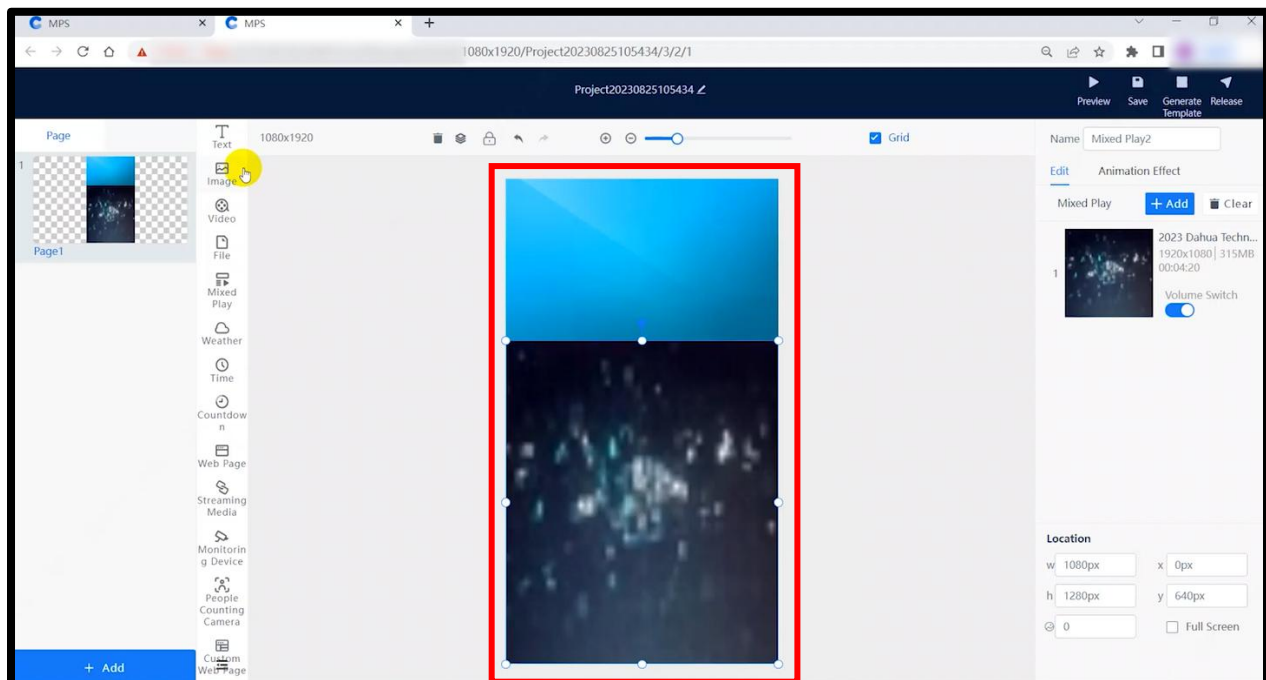

Click the additional part of the template you want to add the other file like video

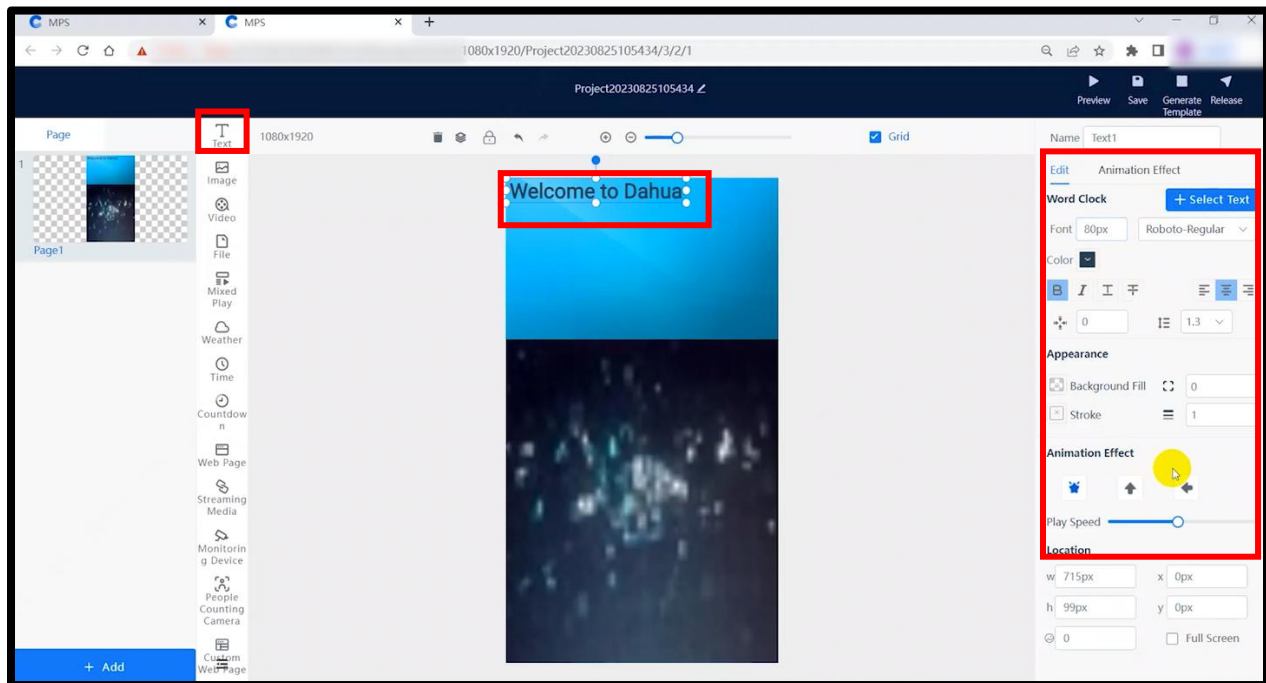

Like what you did on the first part, select the file you want to add and click OK

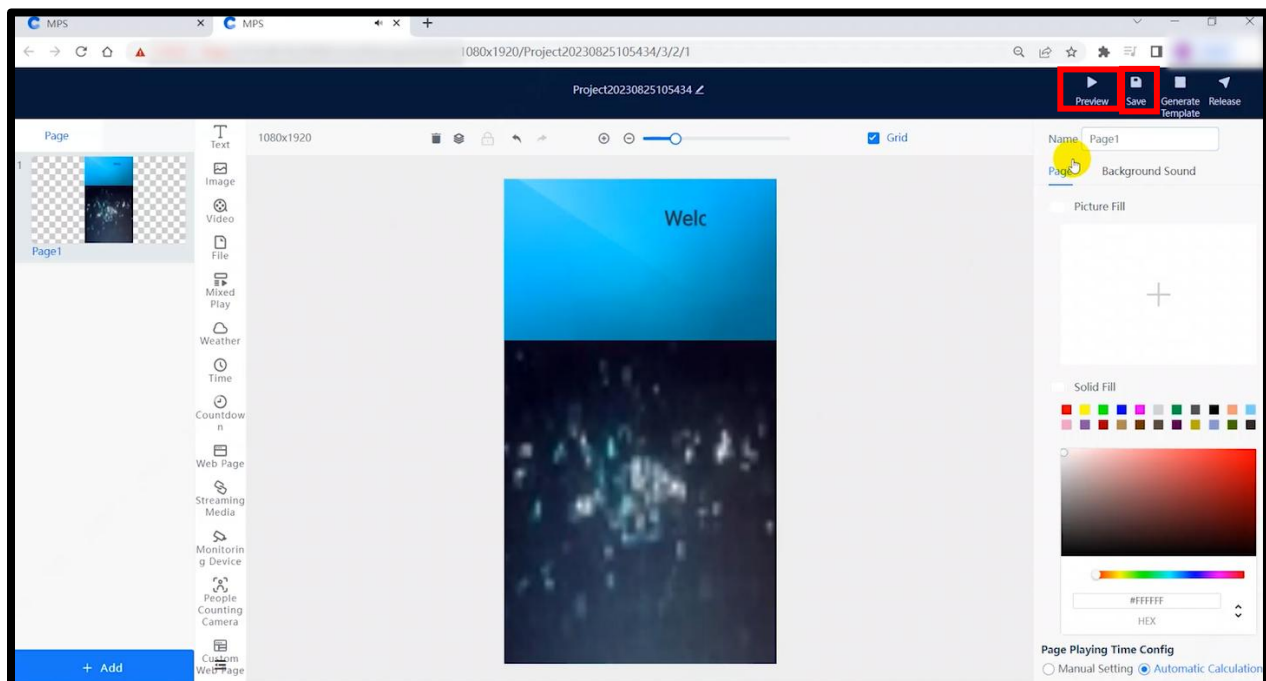

The file will reflect on the template, and you can add text or another image you want to add

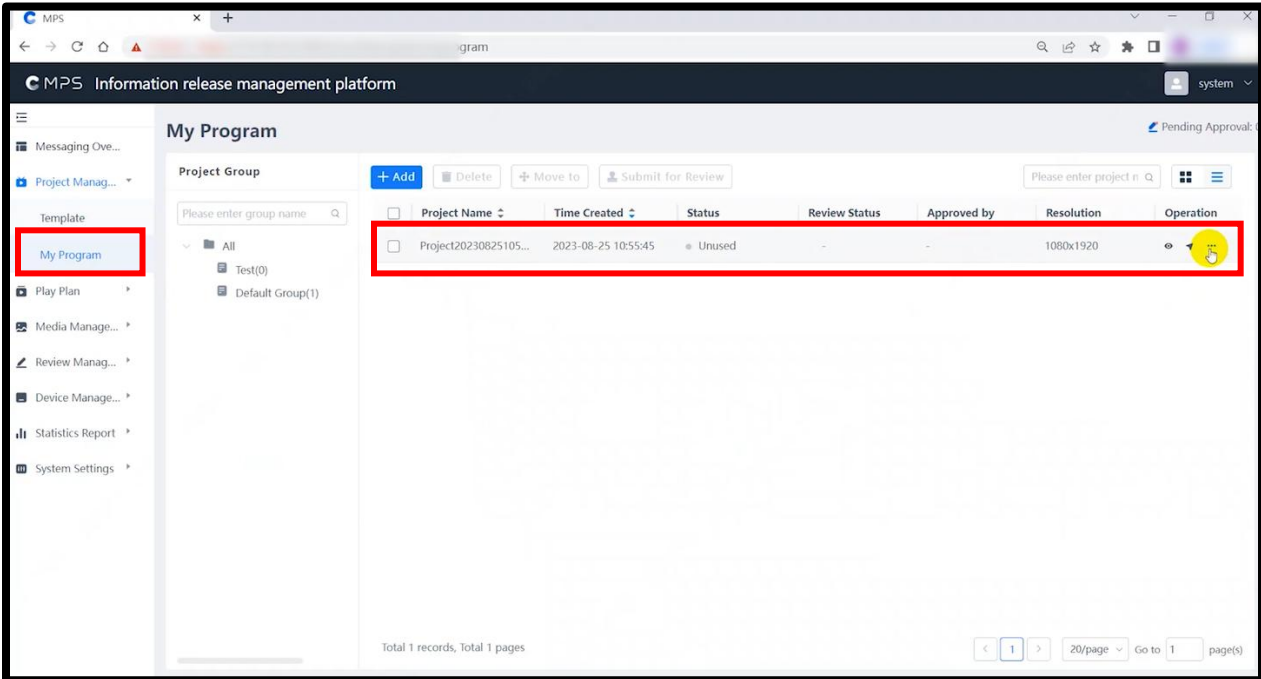

You can add text by clicking the Text button on the left and enter the text you want, adjust the text settings and you can add animation effect also

You can see the Preview of the project by clicking the Preview button and click Save after that

Wait until the Project is saved, go back to Project management tab and click the My program section and you can see the program you created.

The screenshot displays the 'MPS Information release management platform' interface. On the left sidebar, the 'Project Management' dropdown menu is expanded, and 'My Program' is highlighted with a red box. The main content area is titled 'My Program' and features a table with the following columns: Project Name, Time Created, Status, Review Status, Approved by, Resolution, and Operation. A single record is listed in the table, with its 'Operation' column highlighted by a red box. The record details are as follows:

Project Name	Time Created	Status	Review Status	Approved by	Resolution	Operation
Project20230825105...	2023-08-25 10:55:45	Unused	-	-	1080x1920	[Icon]

At the bottom of the table, it indicates 'Total 1 records, Total 1 pages'.
