

Technical Quick Guides

Creating a limited access user to NVR and add to the DMSS

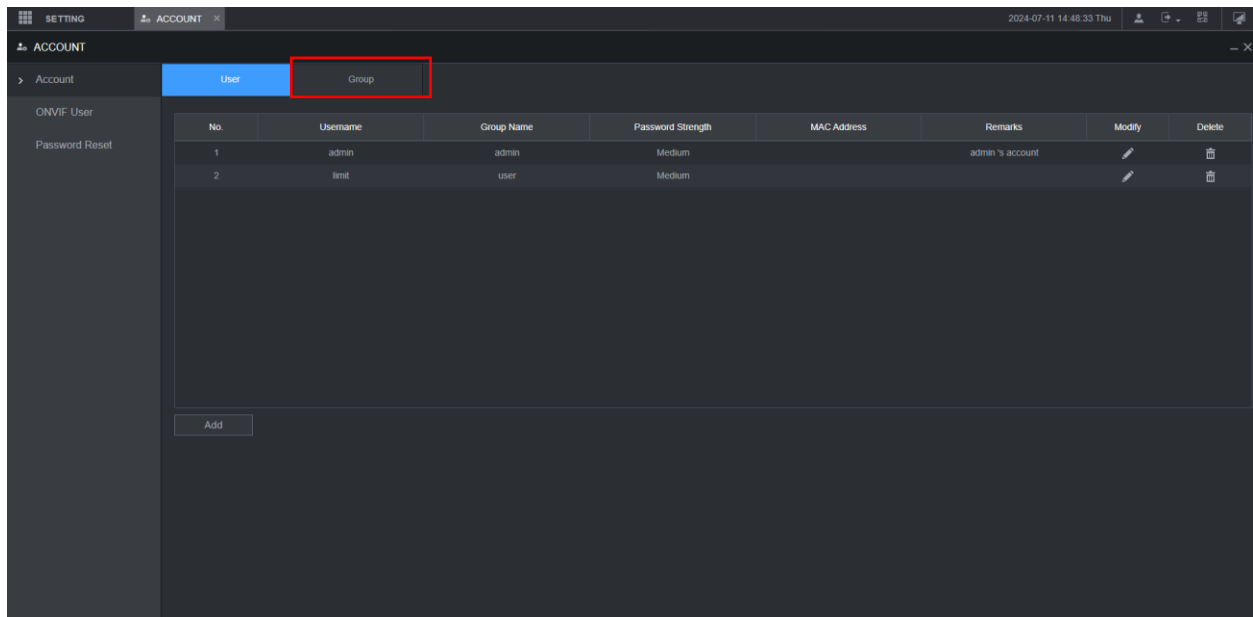

Login to the NVR

On the upper left corner click the **settings** button and → select **Account**

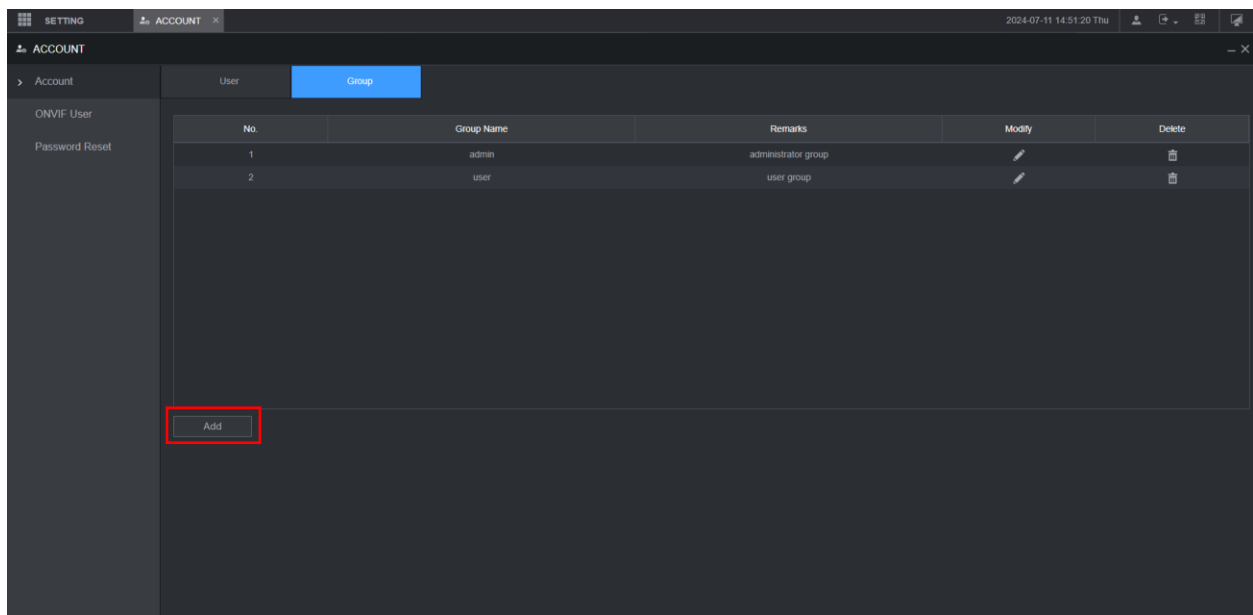

Under the Account tab → click the Group button

No.	Username	Group Name	Password Strength	MAC Address	Remarks	Modify	Delete
1	admin	admin	Medium		admin's account		
2	limit	user	Medium				

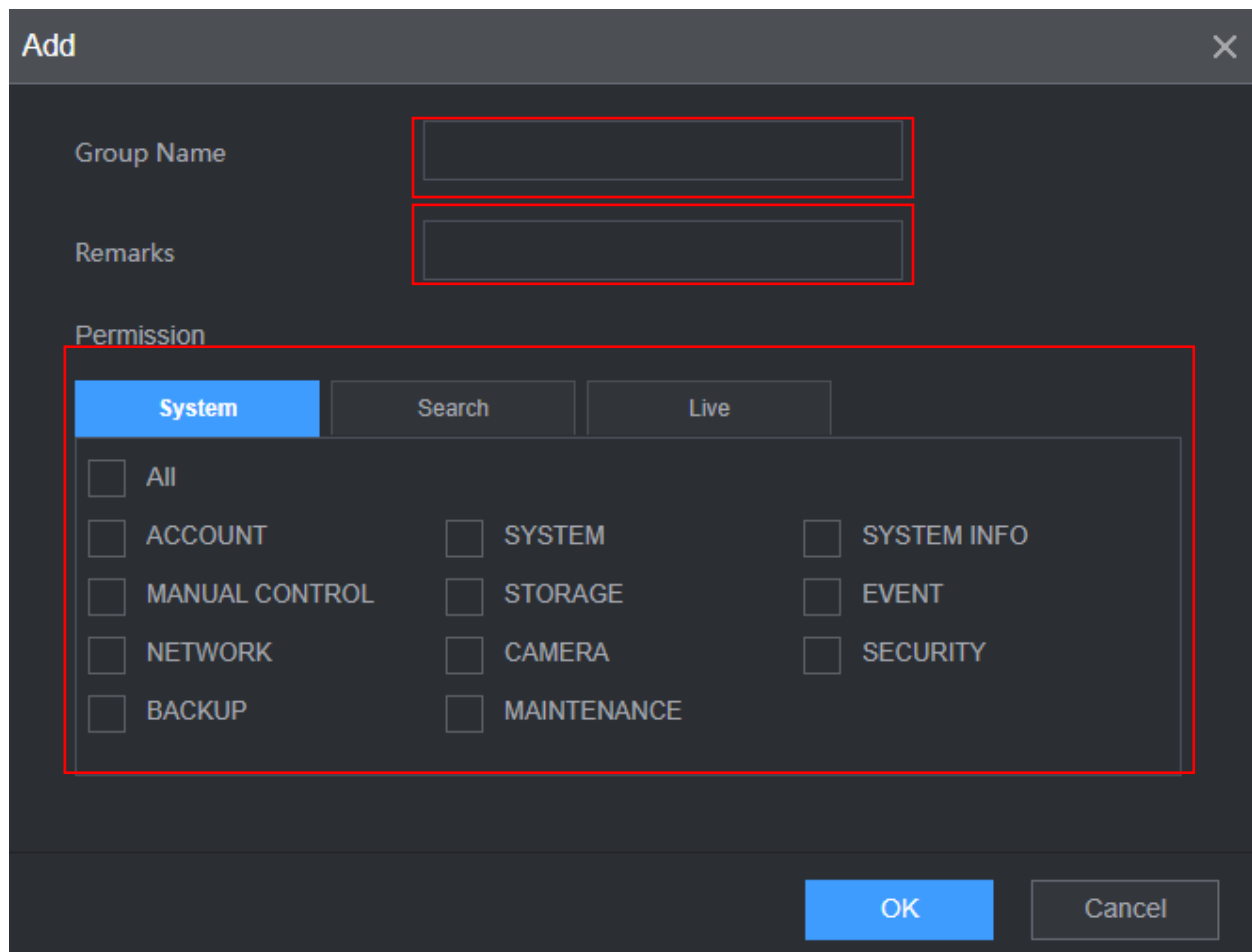

On the group tab click the Add button to add a new group.

No.	Group Name	Remarks	Modify	Delete
1	admin	administrator group		
2	user	user group		

On the Add section, input the details you want for the new group.

Like the Group name, Remarks and Permissions and click **OK** button.

Add [X]

Please contact your local Seadan store for more information & feedback

After Adding User Account, you will see the additional user on the list.

No.	Username	Group Name	Password Strength	MAC Address	Remarks	Modify	Delete
1	admin	admin	Medium		admin's account		
2	user	user	Medium				
3	test	test	Medium				

Add

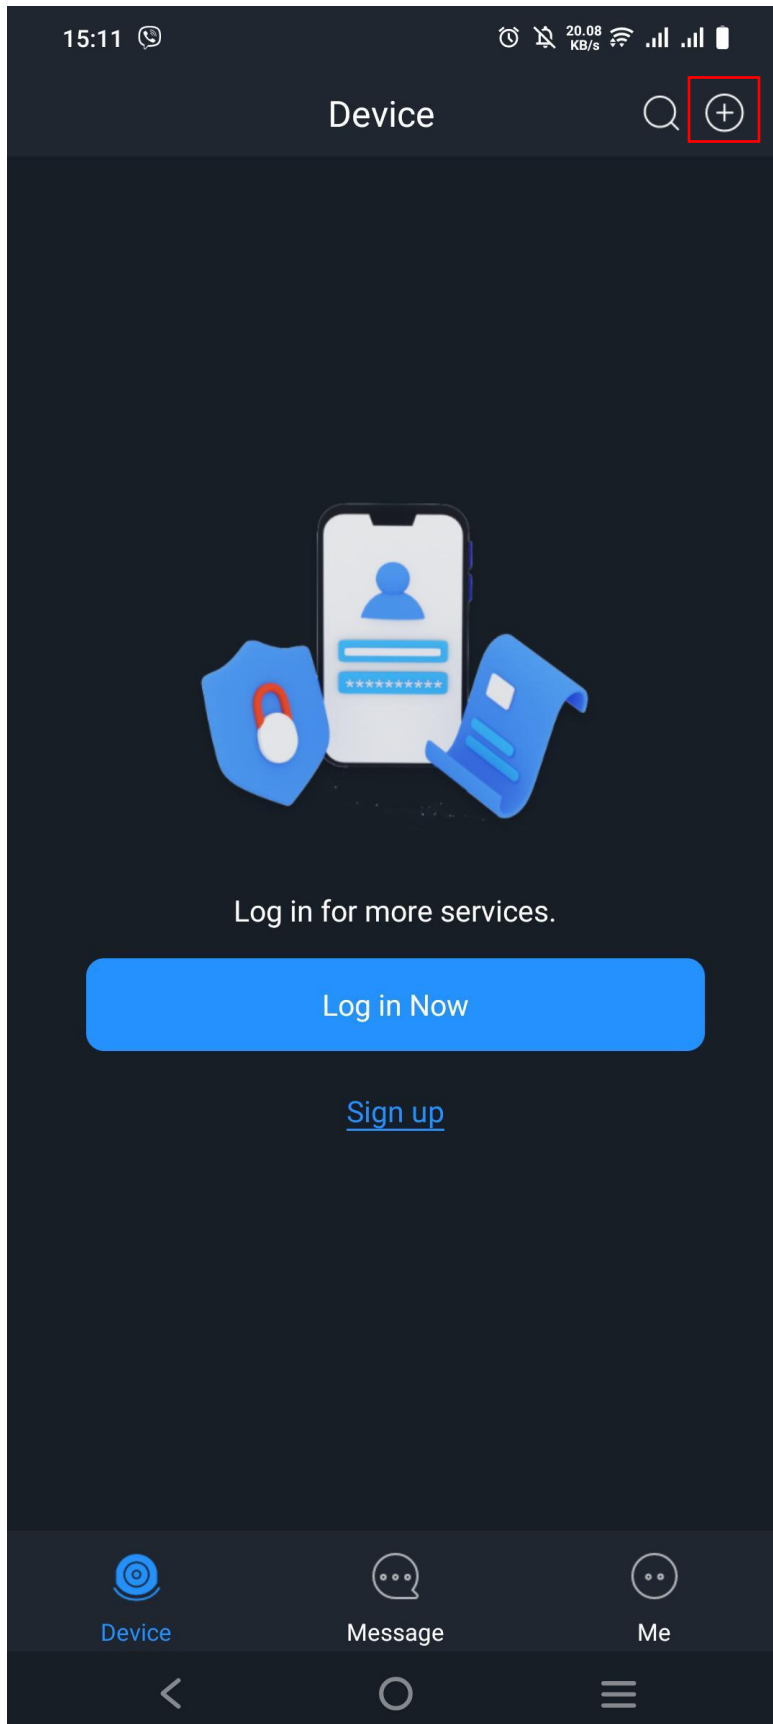

After successfully adding a user account, open your DMSS app

NOTE: you can add a different user of the NVR on DMSS while using a local account.

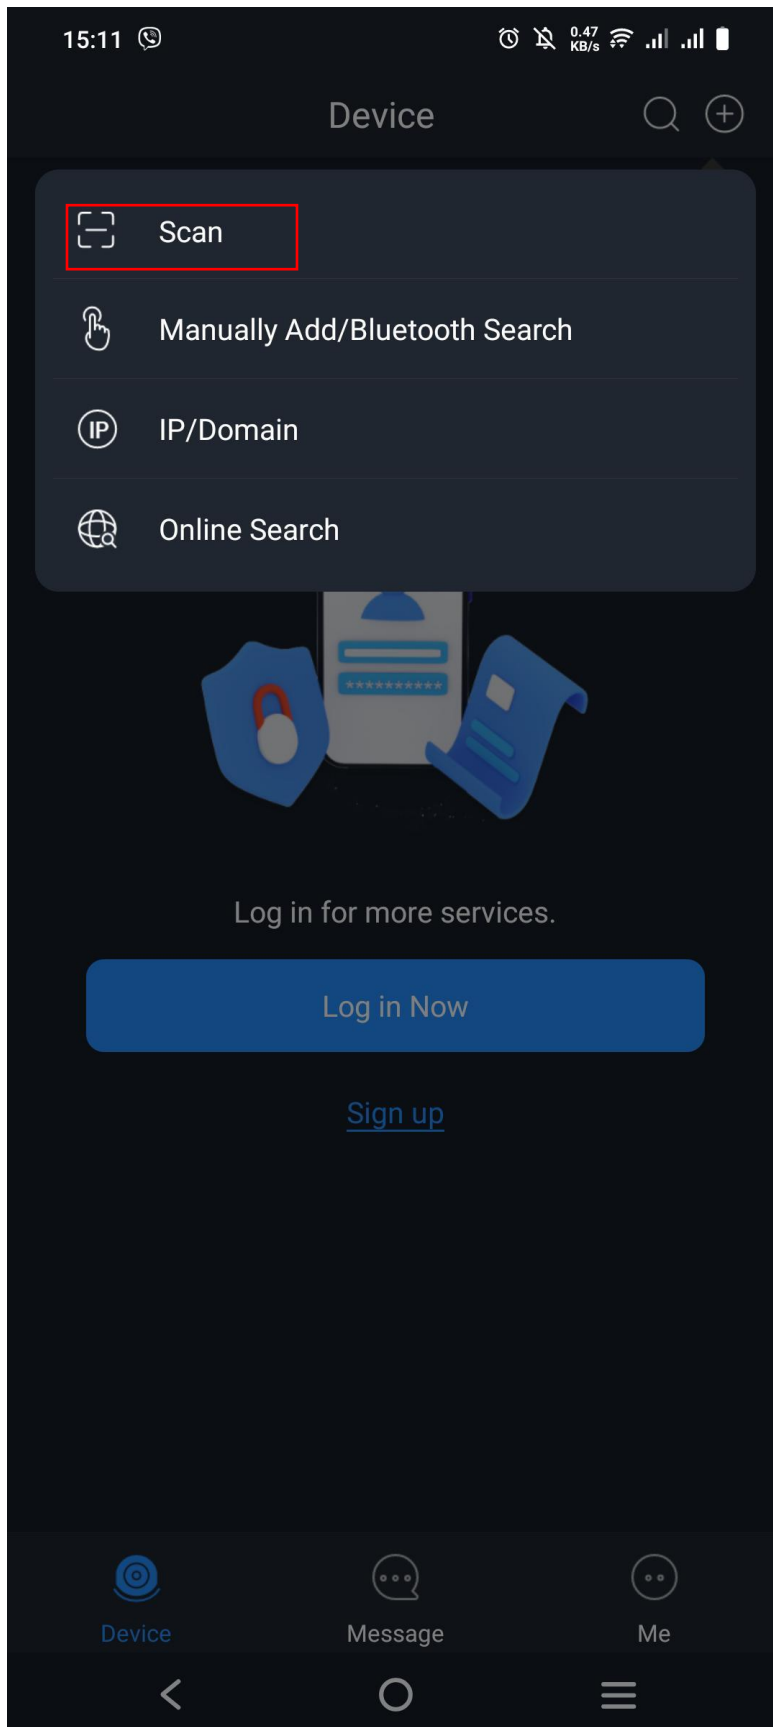

Ex: A limited permission account or a full permission account.

If you login your DMSS account, you need to add the admin account of the NVR.

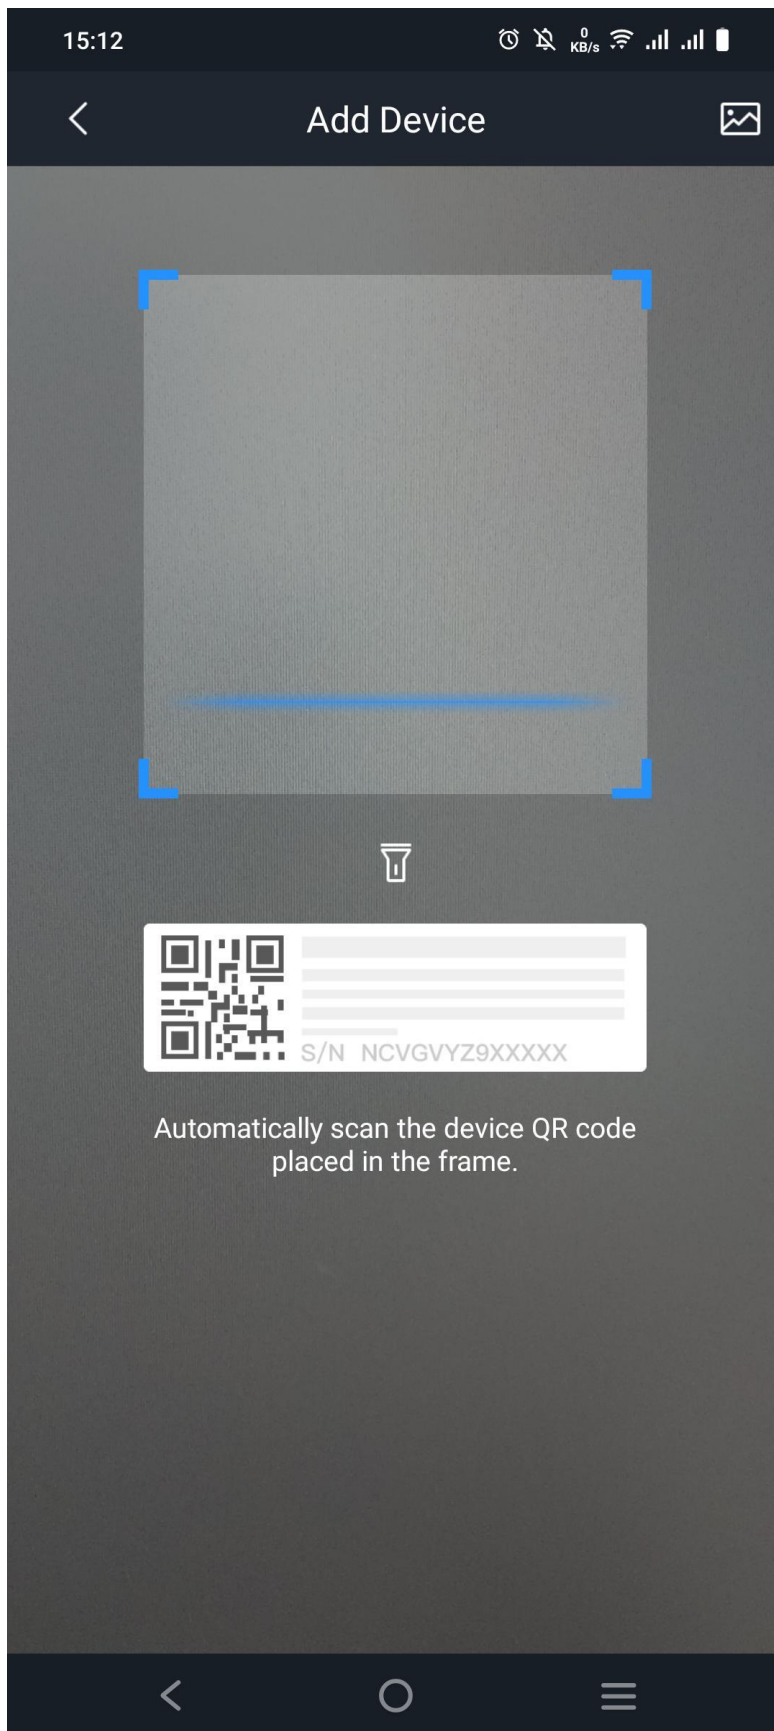

Click **Add device** at the upper right of the screen

Click Scan

Scan the QR code of the Device

Continue the process and click Next

15:12 0.34 KB/s

< Add Device

Device SN and Security Code

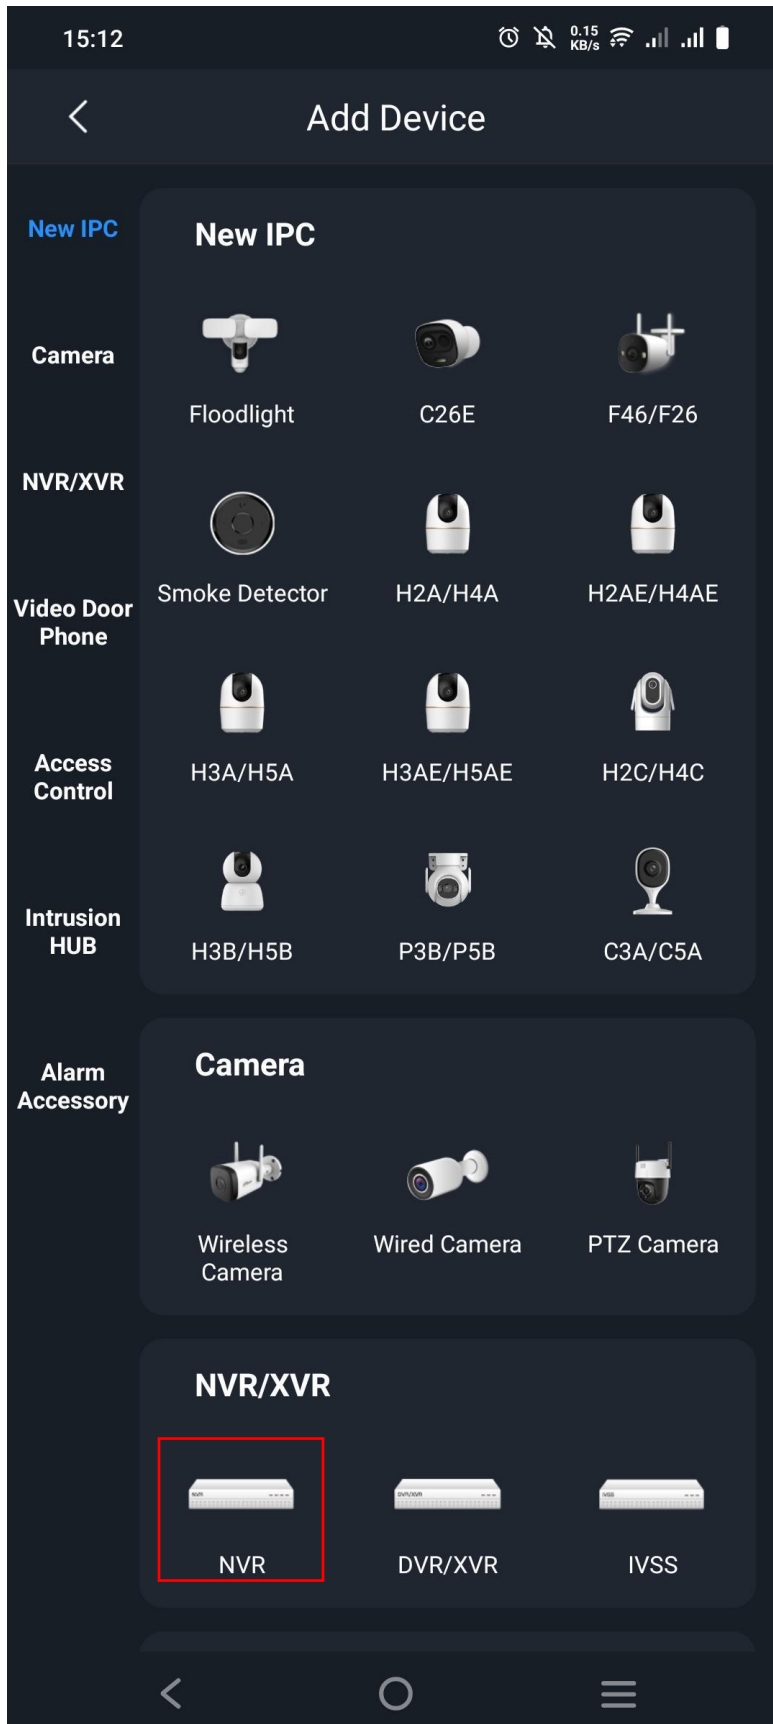

00058

Please enter the security code

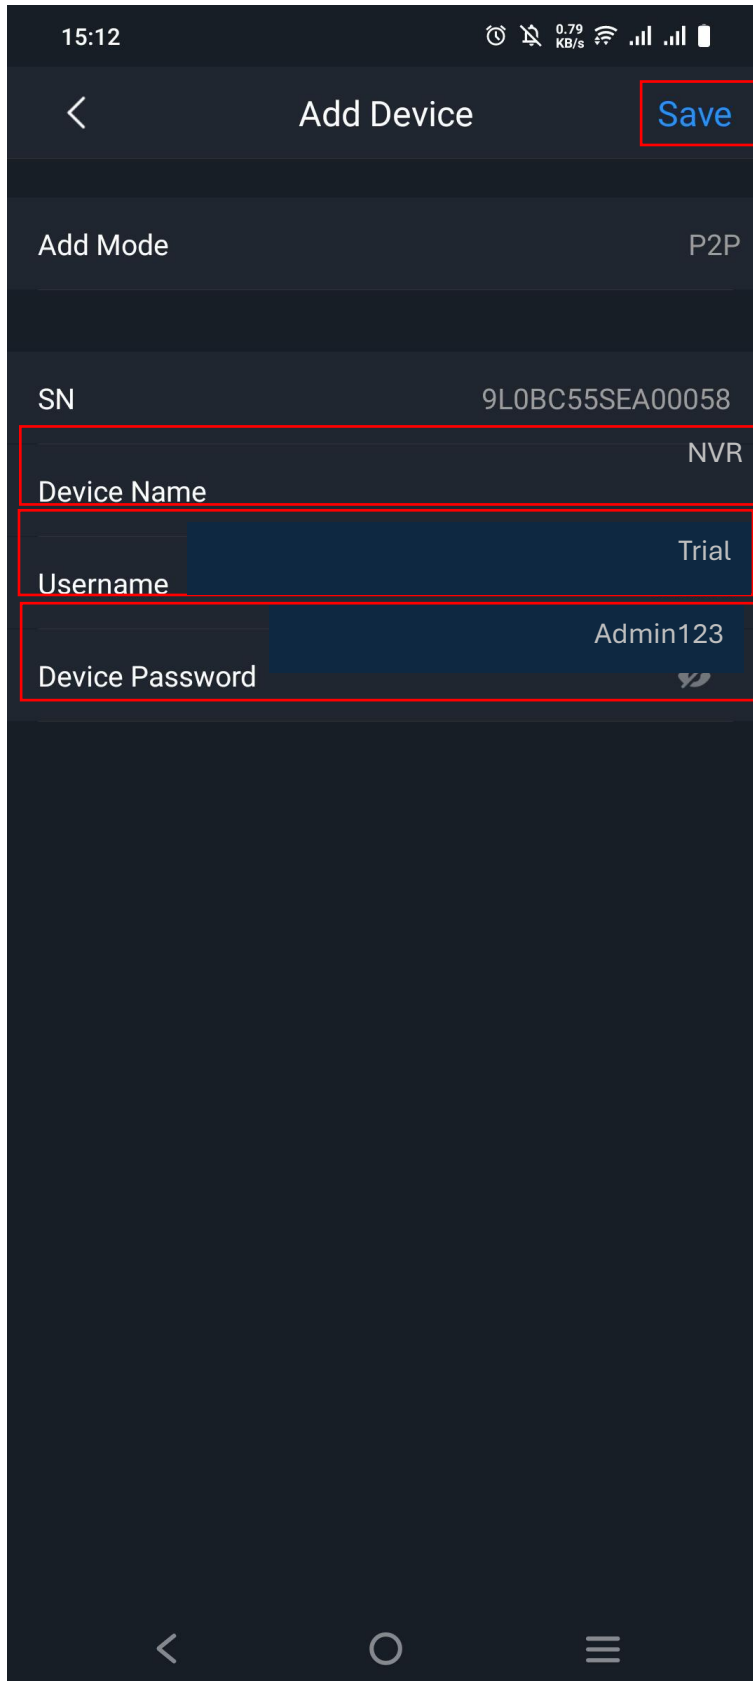

If the security code is not on the device label, you can leave this field empty.

Next

Select the NVR

Enter the Device name → **Username** that we create for limited access, **password** and → click **Save button**. For this same we use **Trial** as username and **admin123** as password

15:12 0.79 KB/s

< Add Device Save

Add Mode P2P

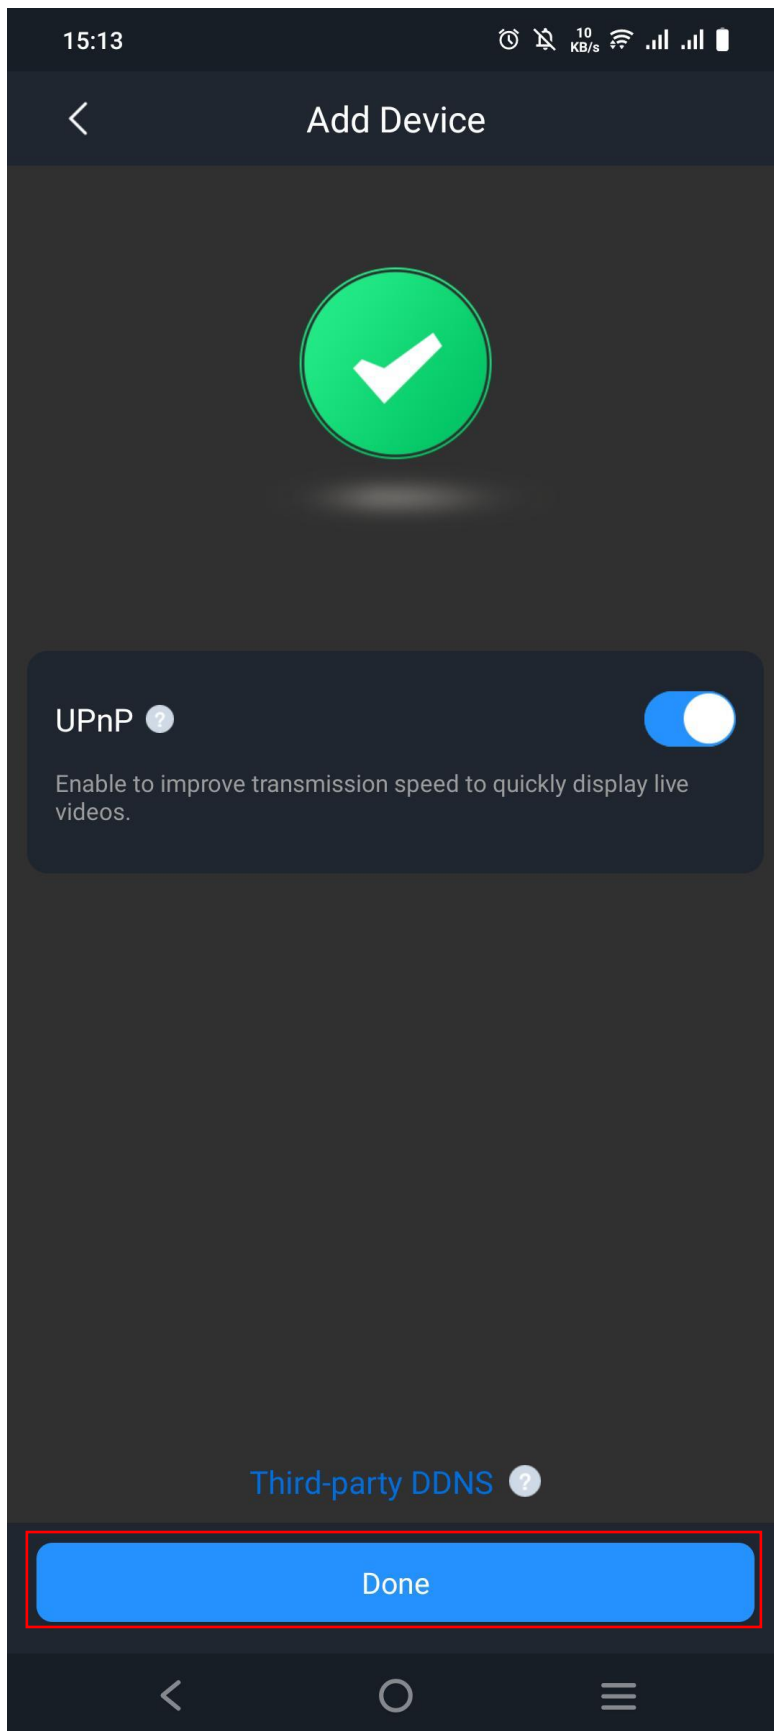

SN 9L0BC55SEA00058

Device Name NVR

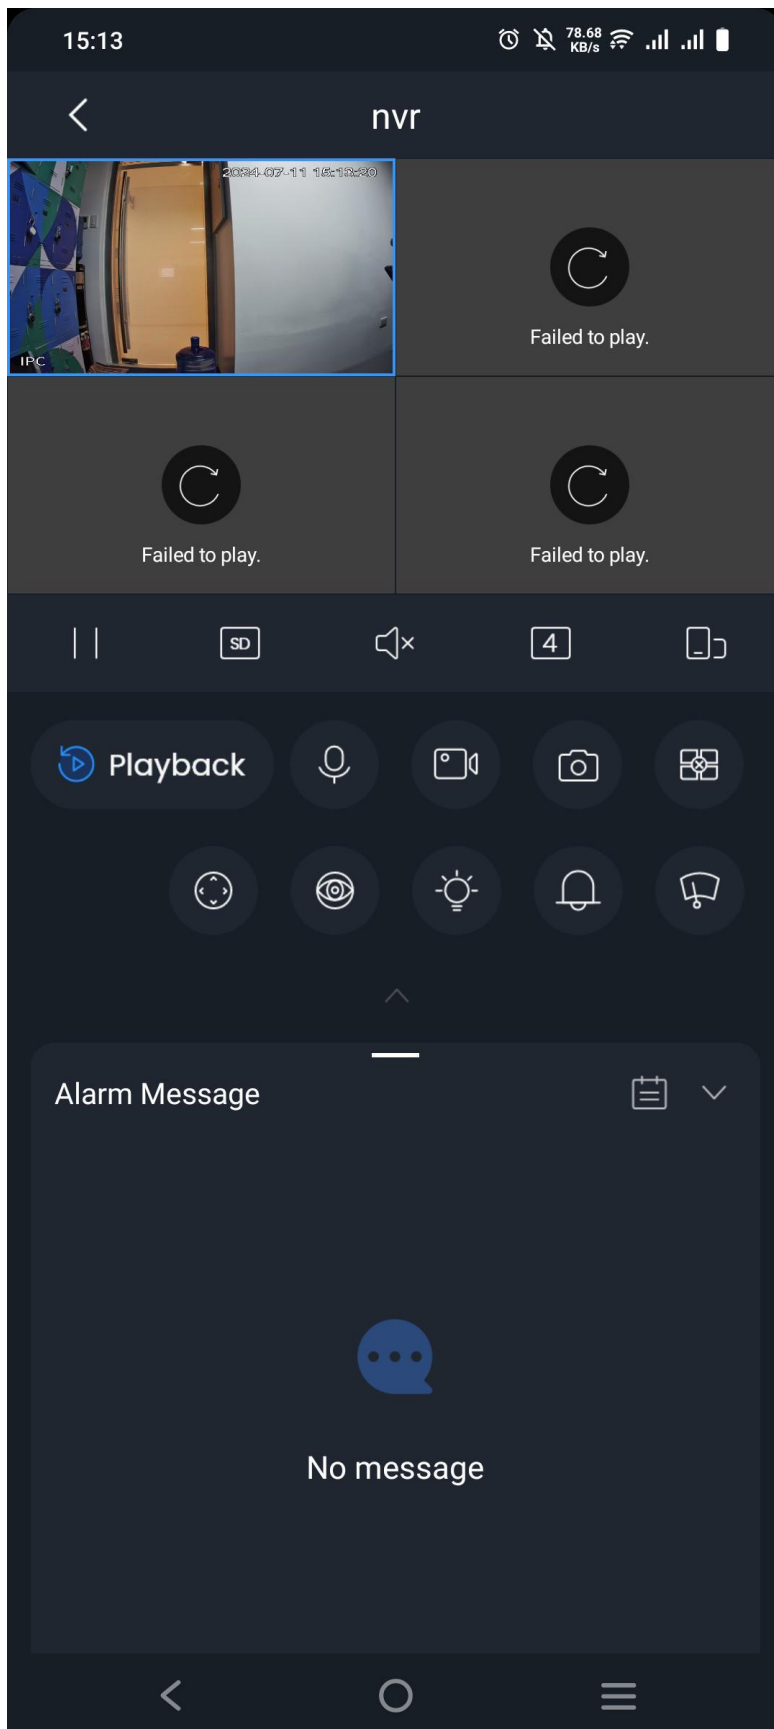

Username Trial

Device Password Admin123

Continue the process and click Done

After Setup you can only see the camera permission that allowed for this user
